The miracles of my other-worldly adventure

© 2009 by Mark Macy

This collection of papers and letters will give you a taste of the magical time I experienced in the early years of my ITC involvement, which began in 1991. Three years earlier, in July 1988, I had been rushed into the operating room with a baseball-sized cancer tumor completely blocking my colon. Surviving the surgery as the new owner of a semicolon (inside humor), my entire life was turned upside down. I became a strict vegetarian for a number of years while my system healed. I could feel my skin crawl when I walked under high-power lines. I went to therapists and learned breathwork techniques to unlock a lifetime of pent-up feelings. And most important in many ways, my preoccupation with peace and world affairs, which had driven my writing since the mid-1970s, gave way to a growing curiosity about what really happens to us after we die. That was a slow transition, however, since I had been agnostic or atheist all of my adult life up to then, and to move beyond that would take some good, solid evidence that spiritual existence was for real.

So, the dialogs in the coming pages represent a turning point in my life. I've selected just a small sampling of the large files of correspondence I have. And the samples I selected to share here are mostly free of drama. Drama may be the first thing you want in show business, but it's definitely the last thing you want in ITC research...for reasons that I explain exhaustively in my books, presentations, and websites. Only one of my books dwells on drama, and that's "Miracles in the Storm," which looks at the eventual breakdown of the miraculous ITC contacts my colleagues and I received through the 1990s.

All the early items in this collection are scanned in, because all of the papers and letters from those early days are accessible in hard-copy only. Email was not yet the mainstream, so all of my correspondence was by letter or FAX. The computer on which I did all of my writing at that time (I was pretty handy with the old WordStar program, by the way) now sits in a corner collecting dust, and a drawer full of floppy disks of both sizes have been virtually untouched for more than a decade. In fact, the 5.25" floppy drive in the old computer died in the mid-90s, and most of my early writings are on those floppies. Since the items are scanned in, some of them have notes scribbled on them.

In recent years I've been out of touch with all of the people from those early years. They've either died or moved on to other interests.

I first encountered George Meek in the fall of 1991 an hour from my home, at an annual conference in Fort Collins, Colorado, called the International Forum for New Sciences. I was presenting a paper at the conference on a systems approach to peace and world affairs.

I was an agnostic at the time, and notions of spirits, ghosts, and UFOs (key themes of the conference) seemed woo-woo-ish to me. But for some reason, when George Meek delivered his keynote address and started talking about his Spiricom device (http://www.worlditc.org/f_05_macy_resonance.htm), energy healing, a roadmap of the spirit worlds, and the paradise home of his recently deceased wife Jeannette (<http://www.spiritfaces.com/images/jdm-hal2.JPG>)—I was captivated. It struck a chord deep inside that had been hiding away quietly all my life.

When I got home I contacted George and was stunned a week or so later when I got a letter from him, inviting me to visit him at his home in North Carolina with the possibility of collaborating. The following is one of several letters we wrote back and forth in the ensuing days.

Dear George,

Here is a summary of how I understand things to be so far:

The MetaScience Foundation which you started, including SpiriCom and other high-tech devices, is now in the hands of Tom Pratt. Your current project, The Property, is a trilogy of fascinating, informative books on life after death and an extensive scrapbook of material on interworld communication, which could be used for the production of movies and TV programs. Recently you have begun the Continuing Life Foundation, Inc., with the initial intent of bringing The Property to fruition. From there I suspect it could branch into a variety of projects and directions relating to interworld communication and afterlife. You are now looking for someone to take over Continuing Life and continue your work on The Property.

Some of my reactions to The Property and the opportunity to take part in Continuing Life:

1. First and foremost, The Property is fascinating! It should reach a lot of people. Exactly how I could fit in has not fully materialized in my mind yet, though I have some ideas. Before I mention them, though, I'll offer some general thoughts.
2. One thought that comes to mind quickly: what logistics do you foresee for finishing Volume III (or V3)? Do you have a channel in mind to receive the material from you and Jeanette once you cross over? What if you're commissioned to higher planes and compelled to redirect your interest from matters of Earth to matters of Spirit?
3. Should we remain mutually interested, I would want to see the manuscripts of V1 and V2, and the collected materials in V4. Perhaps Regina and I could visit North Carolina this spring/summer.

4. Several questions come up regarding rights to published material: .LM5

- Regarding the materials from V4 that you compiled as the head of MetaScience, would rights to those materials be owned by Continuing Life, or MetaScience, or be freely accessible to both corporations to use in future books and movie scripts? (E.g. the GJ Mueller tapes)

- You mention Ghost of 29 MHz as a resource in V4-S1. Does the publisher own all rights to the book (including movie rights)?

- And the Flint Direct Voice tape library? I don't suppose Continuing Life would be free to copy and distribute these tapes or to excerpt and edit the transcripts to use in future books and movie scripts, would they?

5. In response to V4-S4 I have a concern about dark spiritual forces. A part of me would love to see clear communication open up between the physical and spiritual worlds because we could learn so much. Another part worries that "open lines" might give the dark forces easier access to our minds and bodies, with some pretty nasty results here on Earth. So, how do we (people in general as well as researchers) protect ourselves in the coming years if communications become more fluid? Is that even a valid concern?

6. Would the person(s) who acquire Continuing Life acquire all rights and responsibilities to V1, V2, V3, and V4 (assuming that V1 and V2 are not published and V4 not accepted by someone like Paramount by then)? That is, responsibilities to find publishers and producers, and the rights to all royalties etc.

7. My thought about movie producers is that they normally like to buy material that's already built into a story line with a good plot, especially novels. I'm thinking that a good first step with V4 might involve writing a book, either a "historical" novel based on your facts or a nonfiction book presenting the facts in a suspenseful or moving way. I might really enjoy writing a novel about your work. Have you ever made a list of specific scenes, situation, subplots, and dialog that would be interesting in a movie or TV show?

8. If you have found publishers for the books and a producer for some of the V4 material by the time you pass the baton to the new Continuing Life proprietor, would the name on the publisher's contract be George Meek or Continuing Life. I think that might make a difference.

9. Just out of curiosity, how interested or active have your sons been in supporting and working with you during your many years of spiritual research? How active do you think they'd want to be in the future?

A little bit about me:

With all the spiritual materials I've been going over the past few months, I've been suddenly plunged into a new, less visible but more legitimate reality, and I think my head's still spinning a bit. Still, it's a ripe opportunity to put my writing-editing skills to best use. I've always been good at expressing complex topics in easily understood terms ... especially when it's a subject that fascinates me.

The business skills that I picked up while running my own book-publishing company are adequate. Like most people, I guess I consider bookkeeping to be necessary unpleasanties. I can do it okay.

My electronics knowledge has gathered dust over the years like an old radio, but given a few months I could shake it off and polish it up a bit if need be.

My main talent, then, is writing and editing.

Lately I too have been meditating for an infusion of capital to allow me more freedom to pursue my interests and make them my full-time work.

Finally, thanks for the advice to secure our finances. I took some necessary first steps this past week, and we're planning some others later. The C&C predictions sound ominous, especially Kuthumi's and Ramala's. I think I lean more toward Gildas' though, maybe because he and I seem to have similar dispositions.

Very best wishes,

A handwritten signature in cursive script that reads "Mark Macy". The signature is written in dark ink and is positioned above the typed name.

The more I learned of George Meek and his work, the more amazed I became. But George told me that the best research was underway in Europe, and in what I would soon learn was typical George Meek fashion, he quickly began arranging a research trip to Europe that would include George, myself, and a close friend and colleague of George's named Hans Heckmann.

Hans had been a German soldier during World War II, when he met and fell in love with an American nurse stationed in Europe. After the war they got married and settled in Pennsylvania. Hans would play a crucial role in world ITC in the coming years, doing much of the engineering on George's spirit communication systems developed throughout the 1980s.

In the 1990s, the most spectacular reports of researchers in Europe were being published in German, and Hans would soon begin translating them with tremendous care and clarity into English, and in so doing would be instrumental in the spread of ITC knowledge to the Americas...but I'm getting ahead of myself.

The two following letters attest to my new-found eagerness to learn spiritual truths and George's eagerness to get the ball rolling to Europe. The second letter also served as my introduction to the Harsch-Fischbach couple in Luxembourg (whose research would reshape my life, and probably the world as well someday). The second letter also mentions "The Property," which was a series of books and films that George was planning to bring to bear with my help.

Mr. Mark Macy

Dear Mark,

Thanks for your good letter of February 4.

I feel that your analysis of me is probably pretty much on target.

As to travel costs, I will arrange for you to pick up a rental car on arrival for the 70-mile drive to Franklin and I will reimburse you for your airplane ticket.

As to your desire for a psychic reading. Jean Peterson does not render that service. I suggest you mail a request for a reading to Lucille McNames, 205 N.W. Dahlia, Cedaredge, CO 80413 (303) 856-7008 with a check for \$60.00 and a snapshot of you only. Do not mention your connection with me. If you send the letter immediately, you will probably get an answer before we go to Europe.

If you want another reading, locate the whereabouts for a Ron Radhoff someplace in the Denver area, mention my name and ask for his suggestion of a suitable psychic in the Denver area.

I suggest you begin to ask for guidance as to means by which we can create an inflow of \$30,000 to \$50,000 per year for each of the next two or more years, over and above your personal needs and mine -- and even with the economy falling apart! We will discuss possible utilization of such funds during your visit. Don't be frightened by the seeming magnitude of the task. Thank Big ... for a good cause ... which we will discuss at the time of your visit. See enclosed items on prayer and meditation -- the best I have found in years of searching.

A SURPRISE, Maggy and Jules,

Perhaps that ill-fated trip #65 was not the last one after all!

If the heavenly forces are willing, I expect to make one more trip for three reasons -- all equally important. First, the initiating activity was the announcement of the May 1-3 Esoteric Congress in Dusseldorf. The organizers have done a great job of assembling qualified speakers.

Another factor is that Rainer Holbe is planning to make some TV programs on the subject of life after death, with plans for utilization of same in the summer months. (There may be some question about this timing.) I have mailed him a 4 kilogram package containing copies of the manuscripts of the two books on which I have been working during the last 28 months and some excellent material which will be of great help to any script writers on either television or motion picture films.

Third, and most certainly NOT least, it is an opportunity for my new colleague and me to get up to date on the magnificent work that you folks have been doing in the almost two years since I met with you in Luxembourg the last time. While you have been doing a perfectly wonderful job in your publications, and while Hans has done a good job making partial translations in English, this is a far cry from on-the-spot chats.

As a result of my January 7 letter to my personal friends (copy attached), you will learn that I have formed a small corporate entity which is primarily for owning and licensing what I call THE PROPERTY. With some help from the higher planes, I have located and have started to train a man (43 years old) who is well qualified to carry on the work of distributing our books worldwide. As a part of Mark Macy's training, I am bringing him with me on this European trip.

I am also bringing with me Hans Heckmann, partly as a celebration of our 21-year association with each other and partly because I want him to help keep Mark Macy up to date on developments which will be reported in the German language. He will also help us at the Dusseldorf Conference.

I have decided to send you a copy of the material which I call THE PROPERTY in the hopes that each of you can find 20 to 30 minutes sometime in the next two months to just hurriedly flip through its pages. Therein you will see that Jeannette played a key role in supplying material for Volumes I and II AFTER she arrived on the astral planes. Almost from the start we planned that these two books will be the first portion of a trilogy, the third and final book being one she and I jointly would compose AFTER I join her, probably in one to three years. (As you can, of course, comprehend, I have absolutely no fear of "going to the other side.") If I don't "louse it up" between now and the time I go over, there is every reason to believe that our new work will be as exciting as this past work. (Now you can see another reason why I am bringing Mark and Hans along with me on this trip.)

I am enclosing the very, very first preliminary draft of a travel schedule for Hans, Mark and myself. I had to have some place to start. I quickly found that most of the low-rate fares for the time in question had already been booked. Hence that situation was one of the big factors in fixing the flight to Luxembourg and the return flight to the USA. I can only hope and pray that your precious time would permit you to spend a few hours with Hans, Mark and me during the day on either Saturday or Sunday, April 25 or 26.

It would be a great help if you could make just a short telephone call to me a few days after you receive this letter to let me have your preliminary reactions to the contents of this letter. (Even if we don't get to see you in Luxembourg, we will be attentive listeners in your audience in Dusseldorf!)

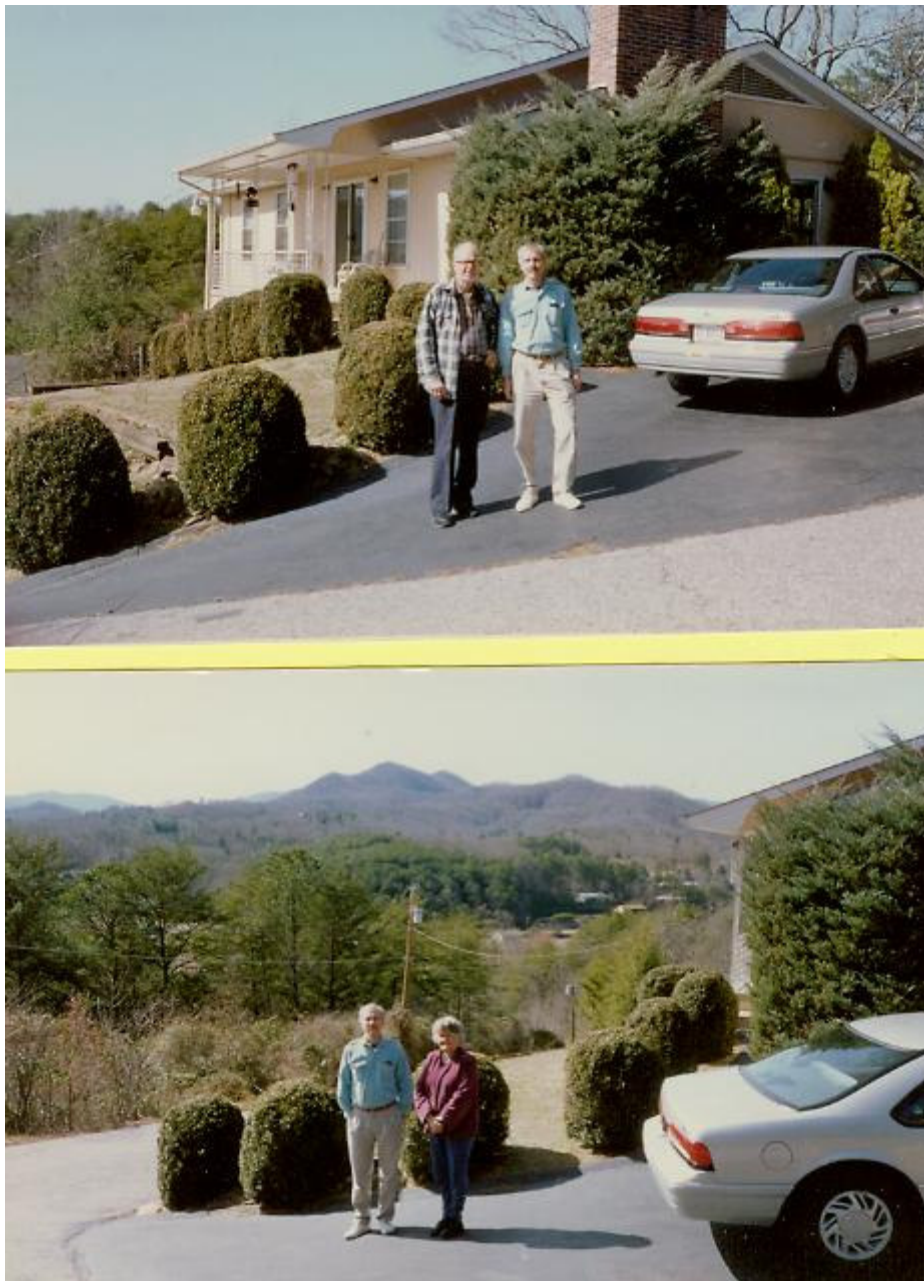

With love and admiration,

George W. Meek

These pictures show me posing with George and his psychic housekeeper Mertis (also known as Loree) outside George's North Carolina home, in February 1992. I was staying in George's guest house during the visit. I remember buying fresh kale at a local store, boiling it on the electric range, giving it lots of salt and pepper and feasting on it one night. One of my real pleasures during that healing time of my life.

The two pages that follow are samples of transcripts of the many, many channeling sessions George recorded, during which Loree would channel her Native American ancestors and George's wife Jeannette, who had died in the spring of 1990. Also coming through at times was their daughter Nancy Carol, who had died at the age of two weeks and then had been reunited with her mom, Jeannette, when Jeanette herself crossed over.

Tape #67 2/16/92 Belated Valentine Greeting - 3rd Anniversary of Loree's Coming.
Shortened, as Loree's power ran down

GWM: This is Sunday night, February 16, 8:28 p.m. Loree has had a signal that Jeannette or Nancy Carol would like to speak to us and we have the tape recorders ready. We are all set. Good evening.

JDM: Good evening, honey. This is your delayed Valentine speaking.

GWM: Delayed Valentine? Thank you. We thought of you on Valentine's Day. We had many wonderful Valentine celebrations over the years.

JDM: And, honey, they *were* wonderful. Has Loree been sick?

GWM: Yes, she has been sick. It will take me a little while to explain this. Over the years when she had these terrible pains for all the things that had happened to her body when she was almost killed, she overcame the pain by going out of her body. She extended her silver cord and her mind and memory banks went out of her body. So she didn't actually feel the pain in her body. She's done that now for more than 20 years. But recently that action got her into trouble because when she would go out of her body *during the night*, the dark forces could get at that astral body, get at her mind which was out where they could go to work on it. They came very close to killing Loree. So both the Great Spirit and her *grand* grandfather told her she would just have to grin and bear it, so to speak. She would have to stand these pains and not go out of her body. We would do what we could by giving her some medication that would help the pain. So that is the reason why you have sensed she has not been her usual self *this* last ten days.

JDM: The reason I asked you that was I tried to contact you, but I couldn't get Loree's attention.

GWM: She certainly had plenty of things to distract her attention. As a matter of fact, we got relief the last couple of days by using up some pain pills that were left from your illness - a drug called Tylenol #3. There were about 30 of those tablets left in the bottle that you had had. They can only be obtained by prescription. So I can understand why you could not reach Loree. But she has done better the last two days. She and I had a nice ride in the automobile this afternoon. It was a beautiful day. We're hopeful now that the pains will not be so bad. Wednesday of this week I am taking her to a man who is a specialist on head problems. One of her many problems has to do with the inner ear which after all these years still results in pain and seepage from the inner ear.

JDM: That's wonderful. I know Loree will be happy. I've been thinking about a few things since we talked last. Have you ever considered giving up the idea on writing a book *after* you come over here to be with me.

GWM: No, I have not considered that and I do not want to consider that seriously. We

Tape #68 - February 29, 1992 GWM and Mark Macy Contact VIA Loree

GWM: We've opened our session with prayer and now we'll take a few moments of quiet and Loree will endeavor to contact Jeannette D. Meek.

JDM: Honey, what's cooking?

GWM: Is this Jeannette?

JDM: Yes, it is.

GWM: Wonderful. This is an historic occasion. We have established contact with you for the first time with our effort to initiate contact here from the Earth plane. You remember the other 67 times?

JDM: Yes, I do.

GWM: This is great. This is an historic date for sure. The second important thing is that it's my really great pleasure to introduce you to the visitor we have here tonight - a young man by the name of Mark Macy. Have I told you anything about him?

JDM: Yes, you have, honey.

GWM: Mark has been here and I've been trying to brief him on our activities. He is very much interested in devoting a major share of his time in helping us to come into contact with a publisher for our two books. He has ideal qualifications to cooperate with you and Loree and me in the months ahead. He can play a major role someday when I'm on the other side and you and I, with his help, prepare Volume III.

JDM: That's wonderful. Is Mark there with you now?

GWM: Yes. He's sitting right here beside me.

MM: It's a pleasure to meet you Jeannette.

JDM: It's a pleasure to talk to you, too, Mark.

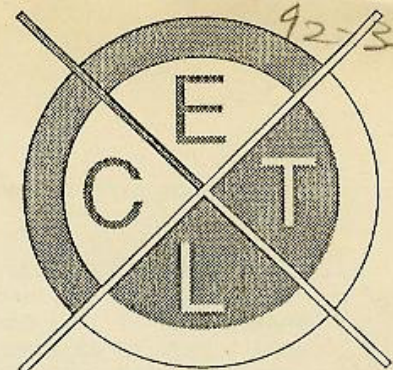

GWM: Mark, speak a little louder because I want to pick this up if you have further occasion to talk. I want to pick it up on the recorders. First of all, a little more on Mark, as a way of introduction. He had major studies in journalism at a university. He has written and published two very splendid books himself so he knows something about the pains of giving birth to new literary creations. On the personal side, Mark is 43 years old. He is self-employed, doing work in the computer field. He has a fine understanding wife by the name of Regina who is 41 years old. She is a school teacher. I guess we won't hold that against her, will we?

JDM: No, you remember, that's what I was, too.

George became ill shortly before our trip to Europe, so Hans Heckmann and I would have to travel alone. That created waves across the Atlantic, effecting changes there as well, as Maggy explains in a long letter to George.

Dear GEORGE!

Both Jules and I regret that you have decided no to come to EUROPE, but we completely understand your decision.

Unfortunately, this will change the programme you proposed us.

We will , and we regret it very much, not be able to receive Mr. MACY and Mr. HECKMANN on April 25th in Luxembourg, because we really do not have the time to do so.

We would of course have made an exeption for you, in case you would have been able to realize your plan to visit us, accompanied by your two collaborators.

The reason, why we decided to welcome you personally is, that you and we are sharing many memories and experiences. Along this years, you have become a close friend to us, to whom we can confide all about our ITC contacts and even our private lives, someone to whom we could never refuse to pay a visit to us, should we even have too little time.

Another reason is, that JEANNETTE has taken up contact several times over 'Luxembourg STATION' and we also feel close to her by our experiments.

Anyhow, our decision does not change anything to our sympathy for Hans HECKMANN nor does it restrain the feeling of a certain solidarity we have with both of your cooperators.

But I think it will be more reasonable, when Jules and I are proposing you with this letter a more 'convenient' date when we can manage to spend some 'prolific' information hours with them.

With love and all the best wishes from Jules and me.

LUXEMBOURG

Dear Maggy and Jules,

Your letter of March 30 arrived yesterday and I thank you for writing me so fully and thoughtfully. Moreover, I compliment you on the beautiful job you did of composing and writing this letter in English. It is absolute perfection! Even my letters are not so well organized and so well expressed.

It was most thoughtful to give us such a detailed background on which we can base the general travel plans of Hans and Mark.

The crucial factor is that in order to afford the travel budget for Mark, Hans and me to come to Europe we purchased excursion tickets from Icelandic Airlines. These "cheapies" necessitated our flying on the particular dates, payment 30 days in advance and no return for cancellation. Not knowing of the September Luxembourg Conference, I did not have the opportunity to take that into my plans. (Who knows? Perhaps I will feel so energetic at that time that I can make a trip myself. Ha!) Time will tell.

Hence we will gladly settle for the opportunity for Hans and Mark to meet with you for a couple of hours on Saturday afternoon, May 2. We will all be most appreciative of your taking this time out of your busy schedule.

It occurs to me that since Hans and Mark have to come back to Luxembourg for their departure on Tuesday, May 5, that you might allow them the pleasure of taking the two of you to dinner on Monday evening, May 4. That is a possibility that you can explore when the four of you meet in Dusseldorf.

It was exciting to learn of the new developments involving Swejan Salter's Finnish language, contacts with Mrs. Irma Weisen and the continuing improvement of the PC trans-pictures!

In closing, I might mention that one of the reasons I had for hoping that Hans and Mark could visit you in Luxembourg was that Hans might take quite a number of photographs in the Madame Curie laboratory which is new since I last visited you. The objective is to familiarize myself with the physical layout against the time when I

will hopefully visit you when within 36 to 48 months when both Jeannette and I may be collaborating *in person* on Volume III of our trilogy.

I deeply appreciate your beautiful Easter greeting and its personal message.

Incidentally, we had our first and unplanned telepathic contact with Bill O'Neil while (unknown to us) he was locked up in a ward in a mental institution. Next, he communicated telpathically via Loree to report of his passing and visiting his own funeral. We have had four additional "progress reprrts" from him! Fantastic.

I will attach a copy of the first draft of a preliminary list of suggested contacts for Hans and Mark. And I will ask each of them to give you a special hug from me.

With abiding love to each of you, Swejan and Technician,

George

S European Trip Report to George W. Meek.

Pardon me, if this report is more in the form of a casual letter, George. Will just ramble along and talk about things as they come to my mind. An old aviation description: "We were flying by the seat of our pants" would probably describe our trip best. Save for the conference days, we changed our itinerary from day to day, yes, often from AM to PM. But then, this is nothing new to you. It seems you have been doing this during many of your trips during the last 20 years.

The DELTA connection flight to JFK had to be cancelled after a 45 min wait in the aircraft. On board computer problems. We transferred to a huge TWA from the West. Great! Had a whole row of seats to myself (nine seats abreast) and TWA terminal in NY was right next to where ICELANDIC AIR departed. This made transfer with my heavy carry-on bag easy. Mark Macy also arrived one minute later. Good timing!

In Recjavik, Gudmundier Einarsson and his son arranged our "stepping outside" to have a cup of coffee/tea. He showed us the Icelandic translation of your book "After we die..." I showed him pictures of our past research and promised to mail him English copies of the CETL INFOnews. This man impressed me as having an excellent grasp of all fields of psychic research. He knows whereof he speaks, he instills confidence and has an excellent sense of humor. We agreed to meet again on our return trip. He wanted to hear about the conference.

Arrival in Luxembourg was on schedule. After currency exchange at the airport we took a taxi to the Alfa Hotel and checked with AVIS about a 10 day car rental. We thought over \$700.- was too much. Mark made many calls. It looked like RAINER HOLBE could not see us himself but had asked his associate EDY GEIBEN a very young TV film producer to talk to us. EDY was sick in bed and would try to see us when he felt better.

The other calls to various contact points were inconclusive and we got the feeling that we were being "put off". My calls to my cousin in Heidelberg were not being answered.

We now decided to check for alternate means of transportation in the main Railway Station across the street. The rail connections looked good but would involve several transfers on the longer distances. We did not like the prospects of luggage transfer very much. Mark checked with another car rental agency.... Still too expensive.

Meanwhile I made an appointment with FRIEDRICH MALKHOFF to see him next day at 2 PM in Schweich either by car or by rail..... Avis calls back. They have a weekend 3-day special at reduced rates..... Great! Just what we need. Next day, Sat. April 25, Mark Macy makes more contact calls. EDY GEIBEN may be able to join us for breakfast on Monday morning if he continues improving.

We took a taxi to the airport to pick up the small AVIS car. Then travelled across the border to Schweich, Germany to see Malkhoff. I noted there was nobody at the custom check point. The place seemed to be empty and wide open....Forebodings of a United Europe?....How wonderful! We found Malkhoff's house squeezed into a row of homes and no wider than a trailer. His wife is a simple little German hausfrau who shook her head with a whimsical expression when I asked how she was feeling about all this spirit involvement. Everything was cozy, although there was not much living space for them and their son Axel (Mark said that he heard that another person was also living with them).

We spent all afternoon with him talking mostly about I.T.C. and his activity. Friedrich had a disability retirement at age 38 and is living on a reduced pension income. Very few people in this small town knew about his activities. When he appeared on Rainer Holbe's popular radio show, his name and hometown was mentioned, yet people in Schweich were asking who is this Malkhoff and where does he live. Friedrich had prepared an excellent demonstration tape for Duesseldorf to be presented in Maggy's and Jules' place. He said he was getting pretty good in giving such demonstrations and lectures. He gave me a glossy 8X10 photo for you of Dr. Mueller who just recently had come through on his (or Homes'?) TV screen.

We returned to Luxembourg before it got dark. The next day, Sun. April 26 EDY GEIBEN called that he would definitely join us for breakfast tomorrow morning. The Pfreunter's expected to see us in Duesseldorf. Ingeborg Franke gave evasive answers about a meeting in Baden/Baden Dr. T. Locher had an answering service. No personal discussion was possible. We decided to abandon going to Switzerland without an appointment or invitation. Of course, we had already agreed that Fr. Resch's strong church ties would prevent him from any publishing cooperation etc. with project "Property".

This was our first day off and we took a very picturesque ride along what was described as a most beautiful border ride along the Moselle river. We bought some fruit and snakes for future driving and had supper in the countryside.

Monday, April 27, had an interesting breakfast conversation with Edy in english. Mark will have more to say about it. My little Sony Walkman failed to record. Found a battery for electret mike was reversed. Darn it!.... I already mentioned to you why Holbe's original program went off the air and what they are looking for in the new program they are planning. Now, if they can solve the translation problem and preserve the spontaneity of your English language tapes, possibly even by reenactment as Mark suggested. It certainly would provide interesting listening.

This morning another call to RENT-A-CAR was answered with a one-week rental offer that compared favorably to the AVIS 10 day proposal. By lunch we dropped off our AVIS weekend car and picked up our 1-week RENT-A-CAR. This turned out to be our wisest decision of the entire trip. The next day, the entire public transportation system in Germany went on strike (incl. railroads) and some German rental agencies were said to be out of cars.

We left for Heidelberg to visit my relatives. I found out cousin Nelly had to enter hospital with a recurrence of hemophilia. The letter she sent did

not reach me in time. We normally would have stayed with her but now had to get two single rooms in the suburbs. It seems I snore louder than I am aware of myself. Mark could not get enough sleep in the same room with me and wanted a single room. He also had a problem finding the right food. Being a vegetarian makes it difficult in Germany. I saw no salad bars. The menus favor meals with meat. In fact most dishes contain meat in one form or another Mark had to pick from the few salad dishes on the menu.

We visited another one of my mothers relatives, an elderly aunt of mine and I saw Nelly in the hospital. Mark no doubt was getting bored a little with all this German chit-chat but never said a word. During our 2 day stay we visited the famous castle, part of the old city and a famous lookout on the other side of the river. My father's relatives in the suburbs who had arranged for our hotel rooms were a welcome relieve as far as Mark was concerned since two of them spoke English.

On Wednesday, April 29 we made more phone calls, one of them to a Mrs. Fuchs in nearby Mosbach who said she'd love to see us. After a beautiful ride up the Neckar river she treated us with refreshments at her lovely home and invited us to diner in a nearby restaurant where we also stayed overnight. She is a delightful lady! The strictly German conversation centered around the voice phenomena and spirit pictures. Friedrich Juergenson was a good friend of hers and she has regular voice contacts from former monks of the Monte Cassino monastery in Italy and receives many pictures like Erland Babcock. She uses the same Schreiber/Wenzel method. Are these images paranormal?... I do not think they are !

The following day we were on our way to Duesseldorf via the beautiful Odenwald woods, a long stretch along the Rhine river and past Cologne (Koeln). We got a double room in the suburbs because of the high single room rates around the north of Duesseldorf which is were the Industrial Fair Grounds and the Hilton Hotel is located. Mark dragged his mattress outside the door to sleep, one night and I slept in the corner of the room the other night.

To our surprise the congress was well attended inspite of the transportation strike. The organizers had problems galore. Every day changes had to be made, sometimes at the last minute. A translation of your pages: "The Future of T.C. and Mental Telepathy" was xeroxed and included in a folder marked "Congress Info". We were given a table and set it directly next to one of the main doors of the hall.

In the afternoon the big hall was divided into three big rooms where the workshops took place. Some of these were repeated another day in another room so that one did not miss to many presentation. In addition, a fourth room upstairs was used for lectures. Many people coming to your book display spoke English and asked questions or wanted to know about George Meek and Metascience. Some were old friends. I am sure Mark has more to say about this.

I taped the podium discussions in the mornings and some of the workshops in the afternoon. Mark attended a few workshops such as the British medium Elizabeth Vickers and her artist associate Dorothy who made drawings of the entities. We both attended the session of the American transce medium Billy Baird. His first workshop unfortunately turned into a circus. The translator

had difficulties with the heavily flavored Southern Negro Slang of three American Negro Spirits. Moreover, most of the German audience had never heard or watched a trance medium and were not prepared for the extremely colorful characters that came through: A 12 year old negro girl from the cotton fields who sung a negro spiritual in a very high pitched voice. (Baird's own voice was very low) There also was the girls "Daddy" and another colorful character who had a strong body twitch that kept the medium's body in constantly twitching motion.

Somehow, the audience thought Bill Baird was putting on a show and they felt the whole thing was a sort of cabaret. They started laughing and making remarks. The translator got even more confused. I heard remarks like: "Getting our money back" and "This is ridicules". The next day Billy Baird's presentation was not rescheduled. This was really a pity. He worked under bright lights and the session was as good and as colorful a piece of transmediumship as I had ever seen.

The only other surprise to me were two excellent motion picture film clips with comments by their German makers. It showed spiritual healing in the Phillipines. Now I know you are an old hand at this and I thought I had read enough about it and seen enough pictures to easily explain it. As usual, the healer did not actually penetrate or pierce the patients skin, although he he made it look like he did. The flow of blood and the various "tumor" and "tissue" manifestations were for the Western mentality and the believe system of patients and onlookers. The "operations" took place on the etheric body only. After the blood was wiped away no wounds, cuts etc showed on the patient who walked away and had felt only a little tickle.

However, two operations were different. The healer apparently penetrated with all the fingers of one hand into the skin. Half of one hand seemed to disappear in the body, yet no wounds or marks showed up afterwards. In another case the forefinger of the healer visibly pierced the skin. A deep hole was made in which the healer scratched around with his finger bringing out "diseased" tissue. One could clearly see the pierced skin flaps. Yet his assistant only put on a single bandaid. In this case it took 2 days for the wound to fully heal with no infection whatsoever. The patient felt no pain.

This current group of Phillipino healers is fantastic . There are two German organizers who seem to take patients there on a regular basis. It is interesting that a live healing demonstration had to be cancelled when two German public health officials showed up at the congress ready to arrest the healer on the spot.

The Transcommunication discussions in which I participated were lively yet did not go into any details. PROF. MOSER provided the damper for the general enthusiasm and ARMIN PFREUNDTER among others got angry at him for his objections. The RAUDIVE tape playback could be heard very clearly anywhere in the audience over the hotels good sound system. Afterwards, an elderly lady stepped up to the podium and declared she was from Raudive's home country, knew him personally and this was not Raudive's voice. FRIEDRICH MALKHOFF's answer was: If you had no larynx and want to produce the voice you had at lifetime, how would you sound ? RAINER HOLBE publically inquired about you and we had a little exchange but there was no time to go into any long explanations. The entire proceedings were kept on a smoothly flowing superficial

level. There really was no question and answer period during this discussion. Oh yes, several paranormal images were also shown on a large screen. Unfortunately, perhaps because of Maggy and Jules cancellation there was no I.T.C. workshop.

Prof. Brune spoke of a different kind of "reincarnation" in which parents and grandparents get new earth experiences through the lives of their children and grandchildren. He would not openly admit the type of reincarnation the Catholic Church does not believe in. He spoke about several books that supported his views. It occurred to me that "URANTIA" which was written for the Christian reader does not speak of reincarnation either (from higher levels, anyhow) and thereby avoids a real problem for most readers. I mentioned it to him and he was at once very interested in the book. Now I am facing a dilemma.: Where to get him a copy of a book that he probably can not afford.

I had tried to get in touch with [redacted] several times but with no luck. Finally he answered the phone a day before our Duesseldorf departure. I think very highly of [redacted] who has consistently been [redacted] thod he and K [redacted] is barely able to [redacted] of what he said made no sense. What did come through was his need of the cooperation from the other side. He may be in danger of possession. I was not able to agree with him on a meeting and finally had to give up.

We returned to Luxembourg on May 3 via Heidelberg where we had lunch at my father's relatives. Maggy and Jules met us at the railroad station and took us to the "lab" in the "Residence Marie Curie". I thought that the house was named after her because it was her former residence. Not so! In Luxembourg many houses are randomly named after just about everyone or everything with no special connection to the name. Maggy and Jules have rented an apartment in this modern apartment house and in the largest room are their files, a computer and the MEZA I tube containing 7 radios inside and 7 loudspeakers hanging on the outside. (see picture). On top of the tube is a miniature TV set and a glass cylinder filled with bubbling water illuminated by a single light bulb inside.

Jules said their only problem was the temperature drift of the radios. I advised getting better radios since the present all-waveband units look like cheap miniature models. There was a welcoming message on the computer screen by St. Claire Deville with greeting to us and to you. (see picture). It was strange when I became aware of the emphasis the couple now puts on technical improvements while I have reached a point where the technical end is not that important to me anymore. We treated Maggy and Jules to supper and then went with them to their regular apartment in Hesperange.

Mark quickly got acquainted with their other computer and its large file of stored computer texts. There was a TV and a phone answering device. I saw no tape recorder except the cassette recorder Maggy carried with her. Obviously, no contact attempt were planned for that day. The next day our

return trip went smoothly. In Recjavik we spoke to Einarsson about the conference.

To my regret I can not find the 8x10 picture of Dr. Mueller. I had it upon return home. I keep telling myself that a house simply can not lose anything like that and we have been going over every room, shelf, drawer, nook and cranny. ut without success. Fortunately, I took pictures of the same image on Malkhoffs TV screen and ordered 8x10 reprints from it. It will be the same quality as your picture which also was taken that way. . Excuse the delay in picture processing. Will mail you the 8x10 as soon as I get it.

With deep gratitude , the best of greetings and my Love

Hans

P.S. to Mark Macy.

Enclosed is audio copy of Billy Baird session in Duesseldorf.

Hans wrote the preceding trip report in May 1992.

The following month my "education" shifted up a few gears as I quit my technical writing job and immersed myself in full-time ITC research. I really had no choice; I was starting to get physically ill sitting in a cubicle, and my mind was preoccupied by ITC.

I presented an idea to the Luxembourg couple about an ITC device that could be used by anyone, but George made it clear (in the following letter) that he and the couple both felt that the world and humanity weren't ready for that kind of ITC device, and it wouldn't be allowed by the finer realms of spirit which help to regulate such things.

What I've learned over the years of ITC research, and was finally able to put clearly into words in my latest book, "The Project," is that people have both a noble side (which resonates with finer spiritual worlds) and a savage side (that resonates with dark and dirty places on the other side). Beings in the finer realms of existence seem to be able to sustain bridges only to people who are able to foster their noble sides while they work together—not an easy thing for us humans to do...what with our egos, hormones, and other sharp edges of our personalities.

I was starting to have very unusual dreams, which I would sometimes share with George. I'd travel to high-tech labs where boxes sitting on tables had tubes streaming light in and out. When I'd touch a table, my hands would stick to it like they were powerful magnets. When waking up I'd sometimes hear voices whispering to me. My life was getting a bit strange, but rather exciting too!

Dear Mark,

Today is the first time I have had an opportunity to read your May 20th letters to Jules and Maggie and to Alexander Imich.

I am sure Jules and Maggie appreciated your letter and that it further cemented your new relationship with them.

As to the paragraph at the bottom of the first page, I may be wrong but I think that they rejected the idea of a "resource for many people to contact spirits" quite some years ago and concentrate exploring all the parameters of audio-video contact with the spirit worlds. It is my personal belief that "resource for many people to contact spirits" would involve a full-fledged commercial operation which would sooner or later be a bag of worms. I feel that mankind is not yet in a position to have such resources available for commercialization.

Now, taking up your letter of May the 20th to Alexander Imich, I congratulate you on your carefully thought-out reply. It is a certainty that you will have need for answering numerous letters on the same subject in the months and years ahead.

employers
Now let me turn to your letter of June 6th relating to the financial accounting for the latter part of the European trip. Knowing that you are now working full time on Continuing Life matters with no salary or consulting fees from your former employer, I naturally wondered to myself "how long can this continue?". It may be that the many ramifications of this matter are best if left to our face-to-face visit a month from now when you and Regina come to visit us here in Franklin. The local expenses listed in your June 6th letter are in a slightly different category and I willingly accept this as a part of your own personal contribution to a joint effort. Nevertheless, let's put this final European trip item of \$765 on the schedule of items which you will prepare for our July meeting.

Next, I want to comment on your letter of May the 21st.

Needless to say I deeply appreciate your sharing this highly personal experience with me. I am, in fact, humbled by your sharing of this information with me. As with the item mentioned above, this experience deserves an agenda item for our July meeting. (On the lighter side I once came across the expression "What you pray for is what you get".)

Love, Light & Laughter,

Green's work is truly outstanding!

The following month, July 1992, George said he received some channeled information (through housekeeper Loree) from Bill O'Neil, the person who had developed and operated the Spiricom device from 1979-1982 and had talked to the spirit of Doc Mueller, mentioned earlier. Bill had died recently and, according to the channeled information, had been stuck in a dense spirit world for awhile because of troubled thinking and addictive habits while on Earth, but had soon moved "up" to finer realms. In the following letter he shares that information with our Luxembourg friends.

Dear Maggy & Jules,

I was sad not to be able to meet with you in Germany and in Brazil. While still in moderately good health as I head for number 83, long air trips are no longer feasible.

Today, in going through my files, I came across the attached sheet, and I have no record as to whether I shared it with you or Swegen. Perhaps she can understand it a little better than I can.

Bill O'Neal has moved up somewhat from his initial very low-level in astral planes. He would like to collaborate with you and Swegen if you have any desire to do so. Even one such contact would be of interest to many people all over the world. (I enclose a photocopy of some pages relating to a few of my telepathic contacts with Bill, via Lori.)

I am happy that you had an opportunity to meet Hans and Mark. They are very wonderful souls. Hans and I have been close collaborators for 22 years. Mark is doing a nice job of collaborating with me on the two book manuscripts which Jeannette and I have written. As he perhaps told you, he will be my "earthside anchor man" on Volume III -- after I get "settled in" on the middle or highest astral plane.

Good telepathic communication with Jeannette continues. We recently had Session #74. What a truly remarkable person she is!

Affectionate regards,

George W. Meek

GWM/st

For the first time in history, it can be said with certainty:

Enclosure: A copy of my recent essay in English, in case I did not send one earlier. (My correspondence suffered some confusion due to change in secretaries.

P.S. Having stopped off most of my worldwide correspondence my principle interest is personal research on the modus operandi of mind-to-mind telepathic process. My mentors tell me that by the end of the next century (see the enclosed essay) person-to-person communication will be largely via mental telepathy.

By now George was starting to make it clear that his chief interest was mediumistic transcommunication (MTC) and Loree's channelings.

Meanwhile, I was becoming more and more excited about instrumental transcommunication (ITC) and the information coming through technical equipment, especially in Luxembourg. It was becoming clear to me that a lot of channeled material was "filtered" by the mind of the channel, while information coming through radios, computers, and other devices under the right conditions (having to do with a resonant contact field, which I've written about often) could be less filtered or more pure.

Maggy had written lots of reports about the amazing contacts that were opening up for her and her husband Jules. Hans Heckmann and I had forged an agreement with the couple during our Europe trip: Hans would translate those reports into English, and I would publish them here in the States. Those numerous reports were called "CETL InfoNews," and I gathered them up into three bound volumes, printed a few dozen copies, and distributed them to a small but growing circle of subscribers.

Still, my main ITC-related commitment would continue to be my collaboration with George Meek unless and until such time as our diverging interests led to a mutually agreeable parting of ways.

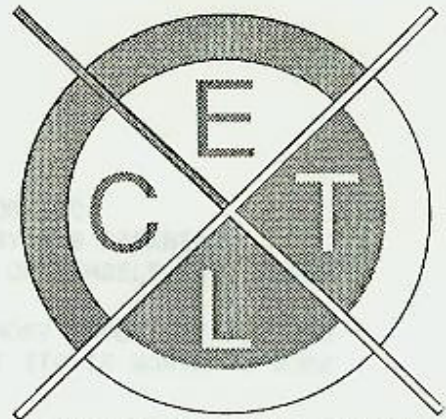

Following is an example of the kinds of exciting letters I got from Luxembourg. They always arrived by mail until I bought a FAX machine in June 1993. In this letter, Maggy says she's trying hard to get her spirit friends to send a picture of Jeannette Meek from the spirit worlds, and they're having some trouble making it happen. Maggy also mentions that she's received some information about Bill O'Neil.

This information through equipment resonated with me (it felt right), and it was compatible with the channeled material George had received through Loree,.

(Swejen Salter, by the way, is the manager at spirit group Timestream, the spirit-in-charge, so to speak.)

Dear Mark!

Thank you so much for your kindness to inform us regularly about your work. We very much appreciate your informations and letters.

I believe you will manage to continue George's honorable and wonderful pioneering work. Thank you also for the informations about the book George and you are working on together with Jeannette.

Concerning the report on the Luxembourg research work: Jules and I find that it is written very well, with care and love. It is the truth and we don't want to change anything.

The one thing I would like to add would be Jeannette's picture. But it seems to be more difficult than I imagined.

Several weeks ago I asked SWEJEN about JEANNETTE and she told me, that from time to time she is meeting JEANNETTE - (SWEJEN is visiting higher planes and is coming back to the STATION CO TIME to be able to contact us) .

She told me that JEANNETTE is living in a higher level and principally working together with a musician. He was a well-known american pianist during his life-time on earth.

I wrote down the name of the pianist SWEJEN told me, but unfortunately I cannot find it back in my (many) note blocks. So many new informations came through about other people and themes, and I have forgotten to ask SWEJEN once more. The following weeks I will arrange my notes and try to find it. May be JEANNETTE will tell the name to Loree.

On the 6th of May SWEJEN informed us about BILL O. NEIL: (May 6, 1992)
SWEJEN: AT THIS MOMENT I AM TALKING TO YOU BILL O. NEIL IS TOGETHER WITH HIGHER ENTITIES AND THEY ARE DISCUSSING . THE PLACE WHERE THEY ARE, IS NOT FAR AWAY FROM HERE.
DURING HIS LIFE ON EARTH HE HAD, AS YOU USE TO SAY, HE HAD LOST THE RIGHT WAY A LITTLE.

HOWEVER HE WAS ONE OF THE FIRST MEN WHO WAS WORKING FOR ITC.
HIS GOOD ESSENCE IS STILL EXISTING BUT IT WAS HIDDEN BY HIS SICKNESS.
NOW THE OCCASION IS GIVEN TO HIM, TO LOOK INSIDE OF HIMSELF AND TO GET
CONSCIENT ABOUT WHAT HE WANTS TO DO NOW.
HIGHER ENTITIES WANT HIM TO DECIDE WHAT WILL BE THE MOST IMPORTANT FOR HIM
TO DO IN HIS FUTUR LIFE. THEY WANT HIM TO DECIDE IF IT ITC IS WORTH TO WORK
FOR IT OR NOT.
MAYBE HE WILL DECIDE A LIFE WITHOUT ITC.
MAYBE HE WILL SEE HIS RESPONSIBILITY.

Poor BILL, I think it will not be easy for him to decide, but I am sure
that higher entities will tell him that we all love him and that he will
never be alone...

When I was asking SWEJEN for a talk with TECHNICIAN:
SWEJEN: I AM SORRY, BUT HE IS, FOR THE MOMENT, FULLY OCCUPIED WITH BILL.

I got the impression that BILL must be a very important personality for the
spiritual world. It seems that a lot depends of his decision.
I got the impression, that Bill has abilities, which cannot be replaced by
higher entities, something like a connexion between the physical and
spiritual world.
I will try to contact him, but am not sure if he wants to do the same.
Please try to support me by your thoughts.
I did not hear anything these times, but was myself very busy with other
things. Perhaps this letter can help...

With love, light and best wishes

Maggy & Jules HARSCH-FISCHBACH

N.B. We have only one lab (that's expensive enough), the one you were in
with Hans. And we only have one experimenting device there (the MEZA 1 you
saw). OK ???!

Jules

This information about Bill O'Neil, above, was of interest to me. I was experiment-
ing with my radios early most mornings, and at some point I began to get Spiricom-like buzz-
ing sounds coming through the radio sounds, and there were clear attempts by spirit to modu-
late those sounds into spoken words.

The following letter backtracks a bit. George was occasionally in contact with Tom
Pratt, the fellow who had purchased Metascience from George years earlier. George tried to
keep Tom abreast of George's new venture with me, which included the books we were working
on, and the two gentlemen tried to iron out the kinds of issues that sometimes arise from such
transfers of ownership—for example, did Tom now own all rights to all the work George had
done during the Metascience years, including copyright ownership of all publications, or did
George still own copyright to the things he'd done personally, or was some of the material in
the public domain?

The following is just an excerpt from one of the letters between George and Tom.

Orlanda,

Dear Tom & Fran,

Many thanks for your most welcome "Daily Extra" of April 24th. It was not only extremely interesting but very well written. Your new lifestyle sounds great and it brings back memories of the 20 years that Jeannette and I spent in Florida, 18-1/2 of which as you will recall were spent aboard our self-designed and built cruising houseboat.

My life goes on with a very full schedule. The channelings from Jeannette (through human beings in the USA and through Luxembourg) are most rewarding -- totalling as they do more than 100 at the present time.

Mark and I have completely rewritten Volume I of the Trilogy and are at last ready to go shopping for a top-notch literary agent.

We have put together a first **VERY CRUDE** effort at a video tape, a copy of which I send you herewith. In the next 4 to 6 months we hope to get the funds to re-do the job professionally confining my appearance and gravely voice to possibly 60 seconds at the start and 60 seconds at the end with all of the rest of the tape by a professional speaker, and with an additional 10 to 20 illustrations.

Tom, what I read between the lines of your printed flyer tells me that the time has come whereby you can sit still long enough to absorb a few facts --

On Easter Sunday 1982 George Meek had announced the Spiricom breakthrough at the National Press Club in Washington DC, and now, 11 years later in 1993, he was starting to plan a similar media event to announce the miracle underway in Luxembourg...as he explains in the following letter.

Dear Maggi & Jules

I hope this finds you both well and that your research is going to your liking. I look forward to later this year when Mark and Hans have the raw material for the second issue of the U.S. INFO-News.

Mark and I are discussing an idea which I now want to present to you. The idea is that I would take on the job of assembling the funds and sponsorship which would permit having a news conference in Washington, D.C. in very late July or in August with the two of you present.

The rationale is that 11 years ago we held a press conference in the ballroom of the National Press Club in Washington, D.C. to announce to the world that we had logged more than 20 hours of 2-way electronically-assisted communication with Dr. George Jefferies Mueller who had died 14 years earlier. We also arranged for coverage over much of Europe and South America. We stated that we had merely "scratched the surface" and it was in the mature of such earth-shaking events that younger, more capable people would come along in the next 25 years to carry the work to a practical level. (I wish all of my prophecies were as accurate as this one!!! Ha.)

This past week I concluded that the time had come to again hold a press conference, one which could serve as the basis for an up-date that would reach millions of interested people all over the world.

I have given thought to where I could find an organization which would defray the costs of such a press conference . . . and lend their prestigious name as sponsor. I have made some promising headway.

For the first time in history, it can be said with certainty:
"Each person's mind, memory banks, personality and soul survive death of the physical body."

However, Mark and I believe this conference would be feasible only if the two of you could attend and participate in the exposure on your years of research. It would be the goal of Mark, myself and our sponsor to attract reporters from the top companies in the U.S.A. in the fields of television, radio, newspapers and magazines.

Tentatively we would like to aim for the last week in July or in the first two weeks in August. We would have a slight preference for a Wednesday or Thursday so as to permit the reporters time for a more lengthy treatment in the weekend newspapers, radio and TV.

SO!

This is just a hasty "feeler" before Mark and I invest more time or energy on the project. Please think about it *and then call me on the telephone with your reaction.*

In Love, Light & Laughter,

George

GWM/st

Thanks for your help!

That press conference didn't materialize, though it seemed like an exciting possibility at the time.

Meanwhile, the spirit of Doc Mueller continued to make contact through the equipment of Adolf Homes in Germany, who was working with renowned ITC expert Ernst Senkowski, a German physicist.

Dr Senkowski passed a lot of Homes' results to Hans Heckmann, who translated them to English and passed them along to me.

The following 10-page report from Germany is fairly typical of what I would occasionally get from Hans. This particular one includes the announcement that Homes (who had been working with the Luxembourg couple) now chose to work with Dr Senkowski.

Hans's cover letter also mentions the phone calls from spirit colleague Konstantin Raudive had been received by George Meek, Sarah Estep and me, suggesting the birth of a new era of ITC in the States.

Dear Friends,

The enclosed contacts of Dr. George Jeffries Mueller through Adolf Homes of Rivenich, Germany is a continuation of Dr. Mueller's German TC activities that started April 22, 1991. On that date Homes received a paranormal image of Dr. M. flashing for a second on his TV screen which he captured with his video camcorder.

Adolf Homes has meanwhile separated his close ties to CETL Luxembourg and a cooperation (triangles) seem to have developed. It includes on earth Dr. Senkowski - Dr. Delavre - A. Homes and in spirit Homes' mother who is his contact person, Dr. Mueller and the entity Juno (ABXJuno) of Spirit GROUP CENTRAL.

This is good news for those who are technically and scientifically-minded. The 1992/1993 questions and answers of their exchange may be an indication of future dialogues. I shall follow it closely and keep you informed.

As most of you know by now Mark Macy, Sarah Estep and George Meek received paranormal telephone calls (in that order) from Konstantin Raudive. These were messages of introduction (5-10 sentences) announcing the successful building of ITC bridges to the United States by spirit group TIMESTREAM. Congratulations! We all have reason to be elated and to be grateful. This may well be the beginning of regular coordinated ITC contacts with American researchers and experimenters by GROUP TIMESTREAM. Be prepared and have your tape recorders ready.

My love and greetings to you and yours

Hans Heckmann

Paranormal computer contacts of Doc Mueller through Adolf Homes, Rivenich, Germany.

This is George Jeffries Mueller through computer in Station Rivenich. Everything that makes up life on your planet, is active in all dimensions. These dimensions are countless and each one is part of the total action of Physical, but predominantly psychical processes. The physical and the spiritual structures turn out to be small forms of energy which in turn are hardly recognized by still finer forms. Yet, all forms of energy are universally connected with each other, though many of them are not aware of it. The mind and consciousness of man is only able to concentrate on basic goals. Spirit life however, regardless of its form, constitutes a certain cosmic reality. Of this reality I can speak only little, since its concepts is not part of your thinking.

Break- Doc Mueller Sept. 20, 1993

George Jeffries Mueller continuing through computer in Station Rivenich. As you know, spirit is eternal. The line of evolution of human life urgently needs changes. It does not get lost and if necessary will exist in another form. **No information about this subject can be passed on to you.** In your good book this process is to be understood as eternal life. For us, your life means probabilities in an omnipotent, timeless reality. The physical brain is unable to conceive these things, although each thought is established in cosmos and each one of your actions takes place simultaneously, and infinitely often, somewhere else. What you understand as your soul, exists in close relationship in many other dimensions and worlds simultaneously. The entity establishes his/her religion which is born mostly out of fear and uncertainty and out of ignorance.

Break - Doc Mueller Sept 21, 1993

George Jeffries Mueller continuing through computer in Station Rivenich. A belief in things of positive nature will create only the positive. A believe in nothing creates very little. We create our concept of the omnipotent principle on the basis of individual reasoning, knowledge and probability. Many of us have a cruel God, for they do not want to recognize the light. The light as we see it and as it is known to many of you, represents the source of wisdom of all creation. A concept of God makes sense a long as the fruits of this concept are positive. Otherwise, religion makes no sense. The God of reality can neither be described by our words nor by your words. The being whose name was Franz Schneider on earth will announce himself at different locations simultaneously. Remain positive in your attitude. It will make further cooperation possible.

Doc Mueller finishing this three-part contact Sept. 22, 1993.

Klaus Schreiber coming through Adolf Homes.

Several earlier attempts by A. Homes to hear from Klaus Schreiber out of

his new spirit environment, were without success. During the second half of January 1994, Adolf Homes' mother who is also his main spirit contact announced that Schreiber can now come through to him via Station Rivenich. Homes passed this on to Ernst Senkowski with whom he cooperates. Two days later on Jan. 31, 1994 Homes found the following paranormal type-out on his computer:

KLAUS SCHREIBER TO ALL FRIENDS OF ITC. ^{MOTOR} I CAN NOW CONTACT HOMES. WE ARE ALL TOGETHER AGAIN. ROBERT DRIVES A ~~B~~ICYCLE AGAIN AT A SPEED THAT IS UNIMAGINABLE TO YOU. YOUR WORLD IS SAD. THERE IS NO PURPOSE IN MISERY, GRIEF, FEAR, PAIN, DEATH.....

CONTACT KLAUS. RADIANCE CONNECTS EVERYTHING. THE AIR IS PURE. I ALWAYS HAD PROBLEMS ON EARTH. DO NOT ASK ME WHY THIS IS SO. WE DO NOT KNOW THE ANSWERS. EVEN A VOID EXISTS, FOR THE CONCEPT HAS A FORM. DEAR FRIENDS, GOING TO COME THROUGH RADIO. TOO BAD, MANY OF YOU WILL NOT BELIEVE IT. SO LONG, KLAUS SCHREIBER IS GREETING THIS CIRCLE OF FRIENDS Jan. 31, 1994.

Remarks:

Klaus Schreiber suffered from asthma. His dead brother Robert was an enthusiastic racer of motor cycles. E. Senkowski.

Who knows Anne Guigne?

Adolf Homes, Rivenich Germany reporting:

"Nov. 9, 1993 at 8 AM I received a telephone call from my departed mother. She told me to get ready for a paranormal contact via my TV set the next day. This I did and at 10.14 AM the face of a young girl appeared on the TV screen which I recorded with my video camera. At the same time the face appeared, my computer started typing".

The original video recording of the picture and the original computer text are on file in our office. The text starts with the sentence: "THE BEING WHOM YOU CALLED ANNE GUIGNE AND WHO LEFT YOUR REALITY ON JAN, 14, 1922 AT THIS MOMENT IS SHOWING HERSELF WITH PICTURE AND TEXT AT STATION RIVENICH."

The message ended with: ANNE GUIGNE OF THE GROUP FOR PROTECTION OF NEWBORN LIFE IS GREETING YOU ALL, BUT ESPECIALLY YOUR CHILDREN."

In her text Anne explains that she has taken on the task, together with other scientists, to take care of those who lost their lives as children because of the irrational behavior of mankind, especially during the wars. She issues a warning of spirit retaliation to those responsible.

Any question concerning the further identification of the communicator ANNE GUIGNE so far remain unanswered. Ernst Senkowski.

TC contact with HANS BENDER, former parapsychologist and expert on Spook Phenomena, of the University of Freiburg, Germany.

Feb. 24, 1994 paranormal contact through radio in the home of Adolf Homes.

THIS IS DR. HANS BENDER FROM FREIBURG. I WOULD LIKE TO GIVE A FEW EXPLANATIONS ABOUT MY MOMENTARY WORK. I WOULD LIKE TO EMPHASIZE THAT PARAPSYCHOLOGY SHOULD BE VIEWED THROUGH A PAIR OF BINOCULARS. PLEASE TELL MR. GRUBER, MR. BAUER OR MR. LUCADON THAT THE PSYCHOLOGY OF MANKIND IS GETTING INTO IRRATIONALITY. THE FUNDAMENTALS ARE NOT RIGHT. THEY LACK A PARALLAX. OF SIZE AND DIVERSITY. I REALIZED THIS TOO LATE WHEN I WAS ON EARTH. THE DANGERS OF YOUR PRESENT WORK ARE IDENTICAL WITH THE RESULTS OF THE WESTERN CHURCH. FREE YOURSELF FROM THE RIGID CONDUCT OF TRADITION AND OPEN YOURSELF TO THE NEW FORMS OF PROBABILITY, A TRUE SYSTEM WHICH I AM GETTING TO KNOW NOW.

GREETINGS TO ALL SCIENTISTS WHO ARE VERY SERIOUS ABOUT THEIR WORK. DEAR FRIEND ELMAR, YOU HAD FOREBODINGS. THIS IS HANS BENDER.

Text found on the Computer Screen by A. Homes on March 7, 1994.

THIS IS HANS BENDER FROM FREIBURG. DEAR COLLEAGUES AND FRIENDS. (There is) NO POSSIBILITY OF (computer) STORAGE HERE. CONTINUING INSTRUMENTAL CONTACT.

YOUR SYSTEM OF REALITY IS ONE OF COUNTLESS OTHERS. ALL ARE HAPPENING AT THE SAME TIME. THE "FREQUENCY" OF OUR OWN REALITY IS SO SHORT THAT IT CAN NOT BE PERCEIVED BY YOU. IT IS FAR OUTSIDE THE RANGE OF ELECTROMAGNETIC WAVELENGTHS AND HAS NOTHING TO DO WITH IT ANYMORE. THE REAL SYSTEM OF ALL BEING CONSISTS OF THE CONTINUOUS CHANGES OF ALL CONSCIOUSNESS. THIS FACT IS THE FOUNDATION OF THE DIFFERENCES IN LOGIC AND MAKES COMMUNICATION WITH YOU AND WITH OTHER LIFE FORMS MORE DIFFICULT.

PLEASE, DO NOT VISUALIZE THAT WE EXIST ABOVE YOU SUCH AS IN "HEAVEN". THE CONCEPTS "ABOVE" AND "BELOW" ARE PRODUCTS OF YOUR MIND. THE SOUL DOES NOT SWING UPWARDS, IT EXISTS IN THE CENTER AND ORIENTS ITSELF IN EVERY DIRECTION.

BECAUSE OF THE MANY DIMENSIONS OF FORMS OF THOUGHT WHICH YOU CAN ALSO PUT INTO PHYSICAL FORM, YOU HAVE THE POSSIBILITY TO CREATE MUCH WHICH WE CAN NOT FASHION IN THE SAME MANNER. INSTEAD, WE ARE GIVEN MORE OTHER ALTERNATIVES.

THINGS YOU CREATE WITH YOUR MIND ARE ALWAYS PART OF YOUR POST MORTAL LIFE WHETHER THEY SEEM REAL OR NOT. THIS IS ALSO TRUE OF YOUR RELIGION. YOU SHALL ALWAYS FIND WHAT YOU CREATED IN YOUR MIND, FOR INSTANCE, A BENEVOLENT GOD OR AN EVIL DEVIL. BETWEEN THEM ARE COUNTLESS FACETS. THEREFORE CONCENTRATE ON THE DEPTH OF YOUR CONSCIOUSNESS AND ON WHAT YOU CONSIDER POSITIVE AND GOOD.

GOOD AND EVIL DO NOT EXIST FOR ME ANYMORE. THE FEAR OF EVIL IS MERELY A MASS PROJECTION HERE AND ON EARTH. THE CORE OF MY PERSONALITY CONSISTS OF MANY SELVES. ONE OF THEM IS AT THIS MOMENT SPEAKING TO YOU IN RIVENICH. BECAUSE OF THIS I HAVE A MUCH GREATER PSYCHOLOGICAL EXPERIENCE AND THE FORMS OF MY AWARENESS ARE RICHER THAN YOURS.

HERE, IN WHAT YOU REFER TO AS THE BEYOND, I AM DEALING WITH BEINGS WHO NEVER LEARNED TO READ OR WRITE ON EARTH AND YET HAVE MORE KNOWLEDGE THAN MOST OF

YOU. THEY LIVED IN AUSTRALIA AND BRAZIL.

HANS BENDER GREETING ALL FRIENDS AND PEOPLE. March 7, 1994. END OF CONTACT.

Radio contact with Adolf Homes March 8, 1994.

THIS IS "SPOOK BENDER". FIVE, TWO, ONE, NINE, ZERO, SEVEN. (5.2.1907 Date of Bender's birthday). I WILL START WITH A FEW DETAILS AS A MEANS OF IDENTIFICATION.

DEAR FRIEND, I SHALL TRY TO LET ALL MOMENTARY EXPERIENCES ENTER YOUR PSYCHE. I SHALL TELL YOU LATER WHY YOU ARE SUITED. THERE SHALL BE NO PRETENSION....

DEAR FRIEND, ALL YOUR EXPERIENCES ARE ENCODED MESSAGES. FEW THINGS HAPPEN BY CHANCE. MY SEARCH FOR YOU WAS NOT SYSTEMATIC ENOUGH. DO NOT WORRY, I SHALL NOT COMPLIMENT YOU, BUT YOUR SOUL IS SIMILAR TO MINE. WHEN I AM FINISHED WITH YOU, IT WILL ALL BE CLEAR TO YOU.

SURREALISM IS PRESENT HERE AND THE FREE UNFOLDING OF CONSCIOUSNESS IS IMPORTANT. THE SOUL HAS NO CONCEPTION OF GOOD OR EVIL. THE CURIOSITY OF MY CONSCIOUSNESS SWITCHED MY INTEREST FROM LAW TO PSYCHOLOGY. IN SPIRIT, I AM ALSO SUBJECT TO THE LAWS OF NATURE AND I AM WORKING ON FURTHER PHENOMENA WHICH HAVE NOT YET BEEN REVEALED TO ME. THE FIRST STEP SHOULD ALWAYS BE THE EXPERIENCE OF THE REAL SELF. I SHOULD HAVE STAYED IN BERLIN. I WOULD NEVER HAVE BEEN SO CLOSELY ASSOCIATED WITH THE SPOOK PHENOMENA. YOU HAVE THE SPIRIT POTENTIAL OF MY FATHER AND MYSELF. I HAVE BEEN UNABLE TO FIND MY FATHER SO FAR.

DEAR FRIEND, WE HAVE THE INFINITE LOVE FOR OUR MOTHERS IN COMMON. THEY ARE TODAY STILL THE PEOPLE WE TURN TO.... ALICE AND KAROLINE ARE FRIENDS. I AM TOGETHER WITH FRIENDS FROM WIERE (part of his home town Freiburg). EVEN KARL FROM ZILLERTAL LIVES HERE WHO MOSTLY MAKES FUN OF ME.

MY FANATICISM ABOUT THE PARANORMAL ALMOST COST ME MY LIFE. EVERY ONCE IN A WHILE I FIND MYSELF IN THE BLACK FOREST. EVERY TREE DIFFERS FROM ONE ANOTHER AS SOULS ARE DIFFERENT. PEOPLE WHO CAN NOT BELIEVE THIS CANNOT BE HELPED. GIVE MY GREETINGS TO MR. SENKOWSKI, MY FRIEND ELMAR AND TO ALL PEOPLE. WHY ARE YOU LOOKING FOR THE LIVING AMONGST THE DEAD?....
End.

Comments to above contact:

The figures of identification are Bender's birth date. He was known in Freiburg and elsewhere as the "Spook Professor" because he dedicated much of his work and investigations to this subject. During his studies in France, surrealism had a special meaning to him. Great reservations disturbed the relationship to his father who was a lawyer and wanted him to study law. Instead, he began the Winter Semester 1927/28 with the study of psychology in Berlin. His mother Alice whom he greatly admired was and still is the person he turned to. The name of the mother of A. Homes is Karoline. Bender grew up in the Wiere section of Freiburg, Germany. With a bevy of followers from Wiere he entered the towns college.

Karl Zimmer was a fellow student and later in charge of the University Library of Freiburg. His fascination for parapsychology exposed Bender to several serious attacks. One of the most serious situations may have been the confrontation with the Gestapo in June 1941. Bender loved to walk in the

Black Forest and often took refuge there. In March 1925 he visited a cemetery at Geneva Lake with a girl friend to see the grave site of Madame DeStael. When reading the inscription on the grave stone: "Why are you looking for the living amongst the dead?" (Luke 24.5) Bender broke into tears.

The above explanations are based on the publication: "Searching beyond the Borderline" by Elmar Gruber.

E. Senkowski.

Contact with THOMAS BECKET.

Adolf Homes entered a request of Jochen Fornoff in his computer in which J.F. was asking for ITC contact in Darmstadt. Shortly thereafter, on the morning of March 7, 1994 1.10 AM, the following answer was received as a computer print-out after the telephone rang twice to alert Homes.

"THIS IS THOMAS BECKET OVER COMPUTER. DEAR FRIENDS IN DARMSTADT, WE WHO ARE CONSIDERED DEAD THANK YOU FOR YOUR POSITIVE AND SIGNIFICANT EFFORTS. THERE ARE MANY POSSIBILITIES TO MAKE CONTACT. THE UNIVERSE BASICALLY CONSISTS OF ETHEREAL AND MATERIAL MUTUAL EFFECTS WHICH ALWAYS MAINTAINS UNITY. MANKIND IS BECOMING MORE AND MORE CONSCIOUS OF THIS REALITY. IT IS THIS CONSCIOUSNESS WHICH ACTS AND CONNECTS THE INDIVIDUALITY OF A PERSON AND HIS SOUL. IN SPITE OF NEGATIVE HAPPENINGS, ALL LIFE IN ALL DIMENSIONS IS CONCERNED WITH INNER AWARENESS. YOUR OWN WORK IS VERY IMPORTANT TO YOU.

FROM THIS VIEWPOINT IT DOES NOT SEEM AS IMPORTANT TO US TO SEND OR RECEIVE PARANORMAL MESSAGES AS IT IS TO YOU. HOWEVER, SINCE YOU GOT STARTED, YOU WILL SOONER OR LATER BE COMMUNICATING WITH US ACOUSTICALLY. WHICH METHOD YOU WILL BE USING DOES NOT MATTER. YOU CAN HAVE MORE INFLUENCE OVER THIS THAN WE, SINCE YOU WORK WITH MIND AND MATTER.

DEAR MR. FORNOFF, A DIRECT VOICE CONTACT AS WE BUILT UP IN RIVENICH WITH THE HELP OF ADOLF HOMES DOES NOT ONLY CONSIST OF ACOUSTIC SIGNALS. IT IS HIDDEN IN AND BORN OUT OF THE ENTITY'S CONSCIOUSNESS AND SERVES THE UNIVERSALITY OF ALL BEING.

THOMAS BECKET SENDS GREETINGS TO MR. FORNOFF AND THE CIRCLE OF FRIENDS IN THE DARMSTADT AREA AND THE CITY OF MAINZ.
MARCH 7, 1994.

AARON about reality systems and Transcommunication - Part II.

Introduction: We continue the series of texts which first appeared as the result of mediumistic cooperation between the entity AARON and the author in the journal Transcommunication Vol II No.2. For a better understanding of TC, the present text intersperses physical/technical material with the hard-to-visualize aspect of man as a multi-dimensional being in a multi-dimensional cosmos. Because of the amount of material in part II, many texts are shortened.

(Translator: If you find it hard to follow this discourse and become confused consider the following: Man as a multi-dimensional being is still a controversial subject, difficult to understand and more difficult to explain. I pity the spirit authors. There is such paucity of language to clearly express themselves. For some concepts no German or English words exist!)

Text 13.

We can influence the probabilities of all manifestations. We do better when the passing of time is undetermined from your side, because your observation, which always wants to see what you are already used to seeing, is not concentrated on the contact field or space. As strange as this may sound to you, electrical charges electrify the consciousness. They give us a maximum effect with a minimum of intervention. Rythmically reflected "rushing sound" is the energy foundation of chaos (randomness) that manifests as orderly structures in time and space. As the rushing sound reflects, it observes itself (feedback). This is the basis of an informational carrier.

Only when the carrier has a random structure and has no parts that are more probable than any other, can we occupy (modulate) it and let the results crystallize in new directions of probability. That is the principle! You have to test yourself, which equipment and which method is best suited. Edison was not successful until he tried 1000 filaments to create bulbs which finally would light up your world. Systematic small variations based on correct basic principles are the laborious path to success.

Text 14.

The contacts are not what you understood them to be, so far. You and your multi-dimensional effects and forms are a constant, integrated part of these contacts. However, you gain new knowledge and experience which you cannot absorb into your mono-dimensional level of consciousness.

The so-called dead continue existence on a level which they dominated before they passed over. That form of existence is not tied to the material functions of a brain. The closer the different levels were tied together during life time, the clearer the life time experiences remain alive in the being's post mortal existence. This is quite different from person to person and is already determined in the seed core * of existence. The "dead" are not dead by any means, neither are they simply continuing life in accordance with our linear concept of time. The complexity of post-mortal systems and life forms does not allow a one-for-one exchange with you. There are only portions of information from both sides which can couple to your psycho-material receiving systems. The transmissions will improve but important elements of our experience and activities will remain in the dark, because they are not transferable.

LATOR: * The German word "kern" (seed or core) is a term frequently used by Aaron. It is not the soul, since some cores develop and others perish. The great spirit Master HILARION, the keeper of the green ray of healing, has a group of former physicians working under him who occasionally restore the core of a spirit being. This group refers to it as seed or seed atom.

(Source: "The Oasis", for advanced students of the light. Sponsored by Master Hilarion. Channeled by S. E Hieronymus, edited T. G. Hieronymus.)

Text 15. Abbreviated.

Trans-systems are arrangements for transmitting information beyond the limited views of physical theories. They comprise targets and speak to structures

of consciousness which are principally unlimited. Each consciousness is a trans-system in itself, but often without understanding for the adjustment mechanism and phase change that is needed to reach from the physical world into trans-levels.

It is extremely difficult to let you participate in experiences which you consider impossible. In order to see, you have to believe - but most of you first have to see before they can believe. You are yourself the best apparatus for reproducing changing matrix information. If you succeeded in contacting with a communication system that is not dependent on your conscious thoughts and their means of expression, we could have very convincing contacts across the matrix levels. Such systems are possible in principle and probably can also be technically realized. What we need is a biological membrane which reacts to unconscious thought pulses and changes them into vibrations. These vibrations in turn have to be transformed into optical or acoustical signals by a physical transducer.

Text 16.

TC contacts are attempts of transmission from worlds that have formed us. We are not more unreal than you and you are not more real than our world. Only your self reflection will let you seem to be more real to yourself, because you reflect yourself in your own consciousness. You are aware of conscious structures of another matrix only temporarily as quick reflections in your mind. For us everything is different. The more real we become to you, the more we recognize ourselves in you. It is a feedback process for dimensional awareness probabilities. This process can become stable once it gets started under favorable conditions. The start is most difficult because it has to overcome seemingly insurmountable barriers.

Feedback or reflection is an elementary part of our contacts, be they mental or instrumental contacts. Therefore, everything the equipment reproduces has to be returned to the input and thereby make the system aware of itself. At that moment the system begins to react to your and our probability modulations of space-time fields on both sides of the veil. This enables us to communicate with each other. You see, we always come back to the same basic elements of the communication net, no matter how it is woven.

Text 17. Abbreviated.

The entire world communication network plays a significant part in Trans-communication since it is a model of a net of pure information. What to you appears as a clean separation of channels, broadcast systems and transmission techniques, is in our view a giant reservoir of information which we can use and manipulate in order to make a dialogue with you easier. This often happens purely intuitively and we cannot not even understand or describe the exact process.

You and your expectations and thoughts are like a radar beam or like a carrier wave which defines and suggests possible techniques of modulation. With few exceptions it is you who sends out a beacon that is appropriately reflected and modulated by us. It depends on decisive subliminal capabilities of your neuron network which you do not yet fully understand. These capabilities can guide trans-dimensional projections outside any path that

you can now imagine. The result is not only ITC or MTC but also an increase in intuition, discernment and changes in your life. In parallel worlds evolution goes on though you may be standing still or other interests are temporarily occupying you. It would more than tax your intellect and perhaps greatly stress you if you were trying to understand this aspect of your multi-dimensionality. It should be sufficient if you suspect it now and thereby ease the confusion of your mind. Above all, do not judge yourself and others too harshly.

Text 18. Abbreviated.

Your thoughts are forming the contact (field). This may seem unusual to you, since there are really two different types of thought: Those you are always aware of and usually refer to as "your thoughts" and the subconscious stream of communication which joins you with other people and with us. Worlds within worlds form everything visible. Causal chains of infinite strings of lower or higher, if you wish, events tie the knots of realization in your so-called reality. The ITC contacts come about in this manner, too. Your domineering conscious thought as a rule prevents the awareness of these multi-dimensional causal ties. Once the glasses that see only a superficial reality have been removed, you start seeing yourself and us in a relationship that is much closer to the realization potential of your seed core.

Aaron is not alone. He is part of a group who for a very long time wanted to open the mind of man through many individual channels. We are about you and within you, we are a part of you which you do not want to be aware of, for it would suppress the dominance of your every-day life. And yet, this part which we share with you is the one that steers your real self and gives it meaning. It is a piece of your real home from which you come, to which you return and which you really never left.

Our efforts constantly aim at making you aware of and opening your eyes to the multi-dimensionality of being. The evolutionary goal of all physical experiences is the integration of the aspects of reality of all forms of the human seed core and of the personality i.e. the soul envelope. You separate things which are really inseparable. Separation and unity are only two sides of the same thing. In a deeper (higher) dimension they fuse into one point that contains everything. You are this point. You are in the physical and in spirit at the same time. The awareness of this unity gives a tremendous strength and peace to your being.

Text 19 Abbreviated.

You continue life after death but not as you imagine it. Not in a linear manner that is related to the flow of time on earth. The existence of your aspects of consciousness in post-mortal condition is so fragmented that you would refer to them now as chaotic. There is a seed core with its individual codes but it has nothing to do with what you now call individuality. Around this core are grouped all multi-dimensional fragments of consciousness which could better be called aspects of being of your multi-dimensional existence. It is not possible to give an understandable description of post-mortal forms of existence because your logical and linear thinking could not grasp them simultaneously.

Besides this general multi-dimensional fragmentation there are however elements of coherence within the framework of ITC and MTC which appear to you as congruent personalities and can have a meaningful personal dialogue with you. Yet, be aware, they are ties of a whole spectrum of consciences which have united for the purpose of forming the personality you recognize. Please do not understand this to be like a "magic act" or some trick. The coherent personality thus formed and communicating with you, is a true and meaningful part of the otherwise unrecognizable multi-dimensional spectra. It is a part of all past, future and forever possible crystallization forms which belong to that particular seed core.

There are no separating planes, though this is how we explain it to you for your better understanding. There are only spectra. Spectra are aspects of ourself or of the seed core. Spectra have ties, interference points and harmonic forms. Everything is without beginning and end and is continuously changeable in its form.

I am sorry if all this should sound very complicated to you. Your dimensional restriction makes an understanding much harder and also is responsible for the inadequate meanings of your language. The common language of spirit does not consist of signs and symbols but of what lies at the basis of thought and speech - of intuitive recognition of truth, reality and of the state of being which simply exists and does not need to be brought to life by words.

Text 20 - 21 Abbreviated.

Changes are the essence of life. Changes indicate a largely unconscious realization that your state of being, similar to ours, is a conglomerate of fragments, which belong to the seed core of your being.... It should become clear by now that all your new experiences were always contained in your own "composition of fragments" and only become active by certain needs in your development. As improbable as this may seem, it is true for all significant human contacts and friendships during the course of your life....

Concerning the question about the structure of our world and its connection to your spectrum: Everything is at-one-ment. The basic and original matrix which produces the different effects is the same for all planes. It is neither visible nor measurable by us or by you. In your material world an energy coupling is developed from it which produces all visible effects on your matrix level. Among them the strong and weak nuclear forces, the magnetic force and electrical force. Our planes are exposed to various resonances from your world. This may lead to reflections from your world into ours. However, our spiritual structure is totally different and is not related to your physical energies.

Primary mental structures form the basis for individual mind and emotion.

Mind does not come from matter, not even in your world, and much less in spirit. It is stuff of a special kind. It is an all pervading primary form of energy that has its own laws. This invisible energy can attract subtle forms of matter and material energy and thereby create semi-stable structures such as appearances and video images which are as visible in your world as they are in ours.

This applies to you, too, when you enter our realms with the power of your

mind and emotions and thus form a structure here which temporarily assumes semi-material character. It is your double that is here, while your material body goes along its way. This explanation is not easy to accept by you and probably will not totally satisfy you. There is no usable answer for this question and perhaps there should not be one....

Text 22 Abbreviated.

Mind, thought and imagination ^{are} is the fountain for all forms. In your physical plane an additional physical energy is needed to maintain these forms. In our world spiritual energies are sufficient. It is a self-stabilizing world of thoughts and imagination.... The stability of our world created by mind and spirit, contributes to the stability of your world. Conversely, the instability and destruction of your world will lead to a change of our world. As strange as it may sound: There will not be the familiar forests and streams in our world, should they have been destroyed or disappeared on earth.

This is the primary reason why the basic matrix of spirit will turn against you, should your efforts for abundance and self-realization be reversed and replaced by reduction and destruction. When this happens, a transformation of your world will begin and the old will be destroyed for a new beginning.

Text 23 to 25 Abbreviated.

God is not thought. He is the power that gives life to everything. He is the source of all possible experiences of reality, the source of all possible and conceivable planes of existence. He is more real than any reality experience because He makes experiences and realities possible to begin with. When you pray to Him regardless of what your conception of Him might be, you are connecting to the source of your existence. You can gain insight and strength you could not get otherwise. Two things are important for you: The awareness of the multi-dimensional form of your existence and the realization of unity and power which ~~has made everything possible~~ ^{GAVE IT LIFE.} ~~itself.~~ You keep looking into the mirrors of the world. There are many such mirrors. And there is one who is holding these mirrors to you, so you can see yourself.....

Text 26 Abbreviated.

Question 1: How is the exact tuning process to be understood which simulates the normal electronic equipment functions?

Answer: There is no simulation. The technical equipment works the same in the TC mode as it does in normal mode, but the activating impulses are "primary" energy and are not of electromagnetic nature. To you, they are imaginary forms which come from the original field of the information spectrum. They produce local changes in the space-time structure which manifest themselves as electromagnetic synchronization and produce the visible or audible output. This first step is not measurable and cannot be tested by you.

This was the Trans-Group Albert Einstein. We thank Aaron for the transmission and end this contact.

Then, on a cold winter day in 1994, Hans Heckmann became the fourth American ITC researcher to get a phone call from our spirit group, as he reports in graphic detail in the following letter, distributed in both English and German.

Feb. 13, 1994

Scenario:

It is Friday morning, Feb. 11. I am sitting in our den at my electronics workshop table which serves also as a desk and holds my electronic tools, a word processor, a British "Quad" stereo system (glorious sound from tube amplifiers) plus is loaded with books and electronic schematics. There is electronic test equipment under the table and elsewhere in the room. "Love" our orange-winged Amazone parrot is screaming and talking a mile a minute. I had just finished a translation from the journal "Transcommunication" and am baby-sitting our grandchild.

ughter Stephanie, she and her
1 a 2 year old very active
with us for a few months

much time on the phone talking d
friends in Missouri and Pennsylv
are for her and for my wife Rita
friends from the Parish Prayer Group which she started almost
20 years ago. I receive very few calls myself and therefore
as a rule do not answer the phone anymore.

Description of events:

At approx. 11:45 AM our three telephones ring (kitchen, living room and master bedroom). My wife who is upstairs cleaning the bedrooms answers the phone, almost tripping over the line cord of her vacuum cleaner trying to avoid our 2 year old grandson.

Rita: Hello!

Deep voice: I want to talk to Mr. Heckmann

Rita: Who is calling ?

Voice: This is Konstantin Raudive.

Rita: Who is this ?

K.R.: This is Konstantin Raudive.

Rita: Just a minute.

My wife by this time sensed what was going on and became exited and a bit nervous. She almost fell over the vacuum cleaner again only catching her balance at the last second. My daughter asked: "Who is it.?" Rita said: "It's those spirits" handing the phone to my daughter: "Listen!"

Rita shouted downstairs: "It's for you".

I went to the closest phone in the kitchen expecting a local call. I was holding my daughter's baby on one arm when I answered the phone.

"Greetings, This is Hans."

K.R. "This is Konstantin Raudive. I have called to tell you

....(at this point, according to my daughter, her extension went dead. I heard a strange noise on the line. The baby threw up over me (She had been fed by her mother before I started babysitting). This was very disconcerting and I can't recall Raudive's message word for word but it was close to the greetings and messages given to Mark, George and Sarah.

Hans: "Thank you very much dear friend". Disconnect signal.

A minute later the phone rings again.

This time I go to the living room where an older "Heath" attachment was temporarily connected to our line again.

I had not used it for many years and pushed the wrong button (I believe I lost one sentence), used another control and got the final message of K. Raudive on tape....He spoke in German this time.

K.R.: ".... in future. This was Konstantin Raudive. You will be getting help through other families."

Hans: "Many, many thanks. I am sorry that you had some difficulties"

Disconnect signal.

The same day Mark Macy called from Colorado. Maggy & Jules had contacted him by Fax. Swejen had told M. & J. about the call. She said that my house was full of emotions. and I might not have gotten the entire message.

How right Swejen was on both accounts! Not only did they feel the temporary tension after the first ring at this end of the line. More importantly, the house was filled with the tensions and emotions of the breaking up of my daughter's family and the ups and downs of a divorce that is devastating to my daughter and to us. (We have a very close relationship). In addition, the feelings of my wife and her involvement in the divorce. She is totally centered in the divorce and her strong vibrations are not lost in the contact.

I therefore consider TIMESTREAM's successful contact a great accomplishment in more ways than one. Raudive's last sentence was a precognitive message probably referring to my dilemma. It is interesting that the extension phone on which my daughter was eyesdropping went dead and that K. Raudive spoke German when he rang again. You can easily guess why ...!

Greetings and my Love

Uebersetzung eines Rundschreibens von Prof. Walter Uphoff.

Von: Walter H. Uphoff
Betreffend: Kontakt mit "Raudive".

Ein humorvolles amerikanisches Sprichwort sagt: "Man kann nicht jemand von einem Ort (Standpunkt) fuehren den er nocht nicht erreicht hat, zu einem anderen (Ort) wohin er nicht will." Oder mit anderen Worten "Du kannst niemand dazu bringen von einer (Ein)stell(ung) zu einer anderen umzuwechseln wenn er/sie nicht dazu bereit ist". Die Wahrheit wird am Ende erkannt werden und wir koennen nur den Weg dorthin entweder foerdern oder hindern.

Dieser Bericht (und alles was sich daraus entwickeln kann) berichtet ueber Dinge die sich in der letzten Januar Woche und den ersten Februar Wochen ereignet haben. Viele Menschen haben noch nie von paranormalen Mitteilungen gehoert. Viele sind der Meinung so etwas sei einfach unmoeglich. Wieder andere halten es fuer moeglich, obwohl wir noch viel darueber lernen muessen.

Dieser Bericht koennte Bedeutung haben welche weit weit ueber unser gegenwaertiges Verstaendniss hinaus geht. Ich moechte darauf hinweisen, dass in der westlichen Hemisphere diese neuen unverstaendlichen Entwicklungen von vielen Menschen mit Verachtung betrachtet werden.

Waehrend den letzten drei Wochen haben wir von drei phaenomenalen Ereignissen gehoert. Die Berichte davon kamen von George W. Meek, Sarah Estep und Mark H. Macy, und schliesslich erlebte ich es selbst. Wir alle erhielten einen Telefone Anruf von Konstantin Raudive der im Jahre 1974 verstarb.

Dr. Raudive war Psychologe, Philosoph und Autor von Lettland and wohnte in Bad Krozingen in der Naehe von Freiburg in der ehemaligen BRD. Er hatte weit ueber 70,000 paranormale Stimmen auf Tonband aufgenommen und ein Buch geschrieben "Unhoerbares Wird Hoerbar" in dem er ueber seine Erfahrungen berichtet. Das Buch wurde unter dem Titel "Breakthrough: An amazing experiment in electronic communication with the dead" in englisch uebersetzt.

Am 27. Januar vormittags um 10:24 klingelte das Telefon. Ich greife nach dem Hoerer, war aber nicht vorbereitet fuer dass was folgte. Eine Stimme sagte: "Hier spricht Konstantin Raudive". Fuer etwa eine Minute hoere ich zu als die dunkle Stimme in einem deutsch akzentuierten englisch sehr langsam sprach und mir sagte wie erfreut er sei diesen Kontakt zu machen. Mary Jo war inzwischen ins naechste Zimmer gegangen um den Hoerer

abzunehmen, kam aber zu spaet. Der Anruf war bereits beendet.

So etwas hatten wir noch nie erlebt. Mein momentanes subjektives Gefuehl war etwa 50:50 fuer oder gegen paranormalitaet des Gespraechs. Schliesslich ist unsere Beurteilung einer Situation nicht besser als die Information die uns zur Verfuegung steht. Das erstaunlichste an diesem Anruf waren die Telefon Gespraeche die darauf folgten. Innerhalb einer Stunde kan ein Anruf von Mark Macy in Boulder, Colorado. Auch er hatte einen aehnlichen Telefon Kontakt von "Konstantin Raudive". Meine Bewertung als echtes paranormales Ereigniss war inzwischen auf 6 angestiegen (von einer hoechst Wahrscheinlichkeit von 10)

Dem folgte ein Anruf von Sarah Estep. "Konstantin Raudive" hatte ebenfalls mit ihr gesprochen und ihr gesagt "er freute sich, dass es ihm moeglich sei aus einer anderen Dimension mit uns zu sprechen". Die paranormalen Chancen stiegen weiter an. Ein weiterer Anruf von George W. Meek vergroesserte diese Chancen immer mehr. Alle drei haben mir Audio Kassetten von den "Raudive" Gespraechen gesandt. * Ich selbst war nicht for eine Tonbandaufnahme vorbereitet und erwartete nicht einen solchen Anruf.

Ich hatte so viele paranormale Erfahrungen gemacht waehrend vieler Jahre, dass ich wohl das "Phaenomen" als 10 einwerten sollte. Jedoch gab es Einschraenkungen die ich mir selbst auflegte in Bezug auf die Stimmenart, welche Sprache benutzt wurde usw. Ich wollte sehr "konservativ" bleiben aber gleichzeitig die Moeglichkeit offen halten, dass diese Dinge echt seien. Nach erhalt der Mitteilungen von Macy, Estep und Meek erscheint es hoechst unwahrscheinlich dass sich hier ein Trickster einen Scherz erlaubt hat.

Maggy und Jules H.-F. haben die "Raudive" Gespraeche in den Vereinigten Staaten bestaetigt sowie zwei weitere Anrufe nach Sued Amerika. Es ist hoechst unwahrscheinlich fuer jemanden der die ganze Sache "entlarven" wollte den glaubwuerdigen Beweis eines Schwindels zu erbringen. Ende des Briefes.

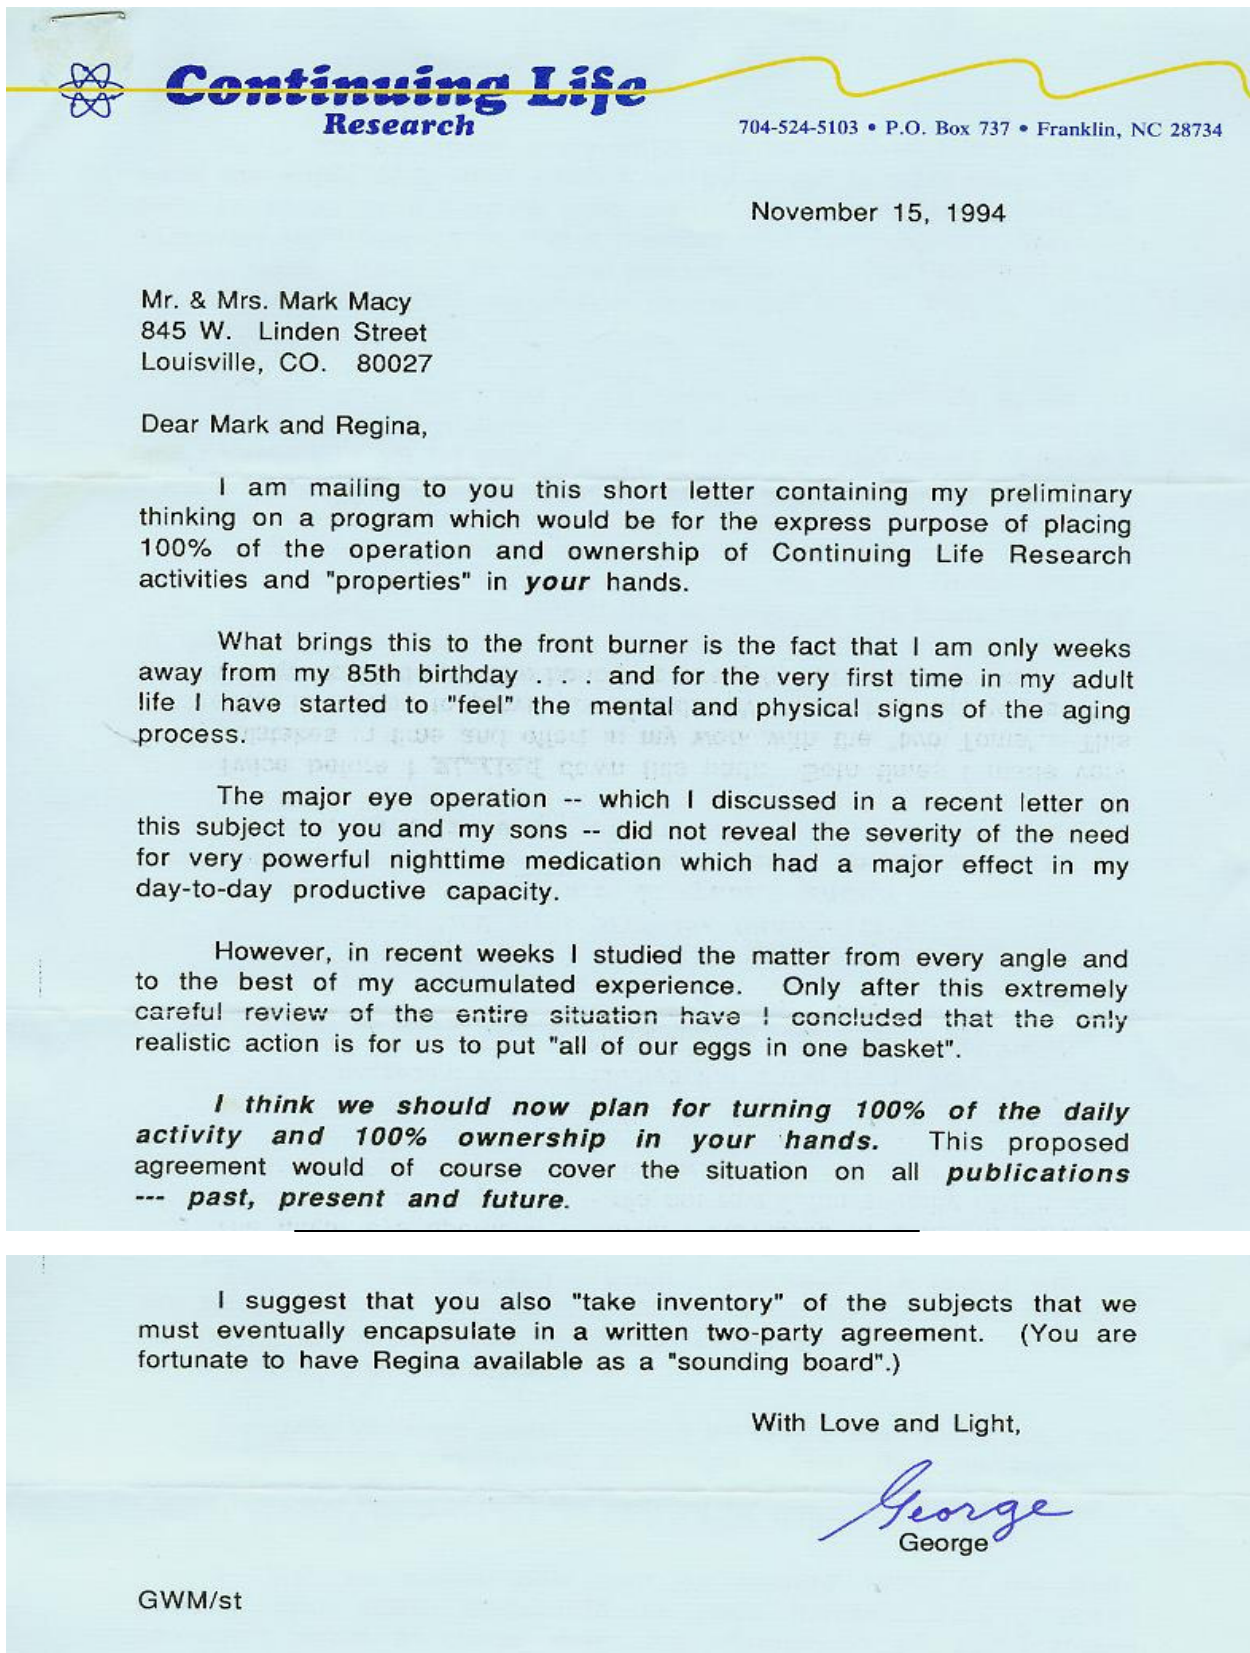

* Wie mir Mark Macy sagte war er nicht vorbereitet und machte keine Tonaufnahme. Ich hatte etwas mehr Glueck und erhielt wenigstens einen Teil des zweiten Anrufs. Koennt Ihr Euch vorstellen wie hoch ich diese Stimme einschaezte und wie wertvoll sie fuer mich ist? Nach 22 Jahren die erste paranormale ITK Stimme mit einer persoentlichen Mitteilung durch unser eigenes Telefon !! Selbst Rita war beeindruckt. Ich wusste immer dass die Arbeit, Erfahrungen und die Experimente der vergangenen Jahre nicht umsonst waren.

My deepest gratitude to Pescator, Technician, Swejen Salter, Konstantin Raudive and the hundreds of co-workers of TIMESTREAM who make this possible. Last but not least, my gratitude to you dear Maggy and Jules for your work and dedication.

Hans

Even my wife Regina got into the game, receiving a phone call from the spirit of Konstantin Raudive, who told her to convey a personal message (a warning of sorts) to George Meek.

In the fall of 1994, George Meek turned Continuing Life Research, (which we had founded together after disbanding George's "Continuing Life Foundation") over to me, as shown in the two excerpts below from a November 15 letter .

In October 1995 I was among 15 researchers from eight countries who founded INIT, the International Network for Instrumental Transcommunication, at a meeting in Dartington, England. That act of good will among researchers from various countries apparently won the approval of ethereal beings, who opened the bridge to our group in the most miraculous ways in the coming years!

I began publishing the *Contact!* news journal (<http://spiritfaces.com/04-journals.htm>) that reported our great results.

Up until the last minute, a number of us researchers were trying to include Dr Ernst Senkowski in the historic meeting, but that was not to be, as he and I discussed (among other subjects) in a FAX exchange in the days leading up to the meeting. (See the next page.)

The dying experience

Luxembourg researchers receive letter from angel

Luxembourg ITC experimenters Maggy and Jules Harsch-Fischbach awakened one recent morning to find the computer running, and a new file on the hard disk. The file had been planted in the computer by invisible hands while they slept.

Children of Earth, people of Terra! Often, when we come to take you home at the end of your earthly lives, we notice that you are in great haste. Like someone who unexpectedly has guests coming, you dash to and fro and try to get some order in the chambers of your spirit and your heart. You quickly get things out of the way which you left lying around carelessly for a long time. You hide other things under the furniture and the carpet because you are ashamed that you neglected them.

Dear people! We come only to greet you, not to judge you. The pupil is not being judged after an hour of testing, but only after his entire period of learning.

You try to imitate us because your religious teach you to do so. That is nice, but do not overdo it. You are still human beings. Sometimes you impose tasks on yourself and others that are too hard. When you fail, you grow ill-tempered and finally become angry with us. You are not perfect, but this is no reason for us to find you repulsive or to look down upon you.

(continued on page 12)

This picture by an unknown artist captures the sense of goodness and beauty that we experience when working with our colleagues from the light, ethereal realms of existence, the so-called angels. They assure us they don't really have wings, though the ribbons and auras of rainbow-like light they emit are reminiscent of wings when people on Earth or our departed loved ones in spirit actually see them. (MHM)

First color picture from Beyond

Independent experimenter Adolf Homes of Germany was the first to report to *Contact!* the reception of a color picture from his spirit colleagues. Mr Homes woke up on October 13, 1994, in a strange, trance-like

state with a compelling urge to try an experiment with his color television. This was unusual for him. Other paranormal video images had come across his old black-and-white set, and his spirit colleagues had always contacted him beforehand, usually by phone, so that he would be ready.

He climbed out of bed, turned on the color TV and set up his camcorder in front of the TV. At the very moment that he turned on the camcorder, this image of deceased voice pioneer Friedrich Juergenson (left) appeared on the screen for 24 seconds. During this time a loud, crackling noise came from the next room. Mr Homes remained seated and kept his focus on the TV. As usual, Mr Homes spoke to the TV in an effort to elicit voice contact with his spirit friends, but to no avail.

To Ernst Senkowski from Mark Macy

Hello Ernst,

'95 Oct. 12

I look forward very much to hearing the letter from K Raudive and
G Mueller of August 28. If you'd like to FAX it to me, I can send
it to Hans today (if you think that would be faster).

There are several Springfields in the States, the most widely
known of them in Missouri. (Also large towns of Springfield in
Oregon, Ohio, Massachussetts, and Illinois, and probably a lot of
small ones scattered throughout the States.) I'm sure there have
been many thousands of Georges from each of these over the years,
but unfortunately I don't think I know any of them.

Yesterday I had lunch with a friend of my father's (my father
died a few months ago), an older man named George Sokol who lives
in Arkansas. Springfield Missouri is an hour's drive from
Arkansas. However I doubt if there is any connection there.
Probably just coincidence.

These mysteries always intrigue me. If you're compelled to let me
know about the story of George of Springfield, once you figure it
all out, I'd appreciate it!

Nice hearing from you again,

Mark

Hello again, Ernst,

Thank you for the letter from Doc Mueller and K Raudive, one of the most important I've read to date.

To me, sad news about the "good (little) while" that will pass before seven more ITC stations are open. Was the word "little" in the original file from spirit, or was that added? It certainly makes a difference! Unless I hear from you otherwise, I will assume it was in the original.

I failed in my original efforts to assemble a larger meeting involving more experimenters in September. I attribute that failure to the clashing egos of many people, including my own. Egos are a difficult problem on Earth, I think. Until we can alleviate that problem through inner work, I suppose spirit is reluctant to give too much of themselves to us. That saddens me.

I believe I sent you a meeting report. If I did not, please let me know and I will send one along. If you change your mind about organizations and decide a loose network of experimenters is something you might wish to associate with, it would certainly do the network good to have you involved! I suppose Ralf Determeyer has already talked to you.

In my data base I found a person from Springfield Ohio, a Douglas Saul who leads a transpersonal study group. I phoned him to ask if he knows a George from his city who is in contact with Doc Mueller. I left that message on his answering machine. If he has any leads I am sure he will call me back. If not, he will certainly find an interesting message on his machine!

I'll forward your two pages to Hans Heckmann, and will let you know if I dig anything up on George from Springfield.

Much love to you, Adolf and your families,

Mark

THANKS - THE GERMAN ORIGINAL RUNS: DAHER WIRD NOCH EINE KLEINE WEILE VERGEHEN BIS ...
THERE IS NO EXACT MEANING OF THE TERM IN QUESTION. LITERALLY IT MEANS 'A LITTLE (SHORT) TIME', BUT METAPHORICALLY IT COULD AS WELL BE 'A RATHER LONG TIME' - 'LITTLE' BEING INTERPRETED IN THE BIBLICAL OR TRANSCENDENTAL SENSE - FOR 'THEM' IT MIGHT BE A LITTLE WHILE FOR US A RATHER LONG TIME. THE WHOLE IS QUITE TYPICAL FOR THE AMBIVALENCE OF MANY MESSAGES.
I RECEIVED YOUR MEETING REPORT. THANKS AGAIN. I THINK IT WOULD NOT MAKE MUCH SENSE TO JOIN NOW - ONE POINT: I GUESS I WOULD NOT BE OF MUCH VALUE BECAUSE I GOT SOME BASICALLY DIFFERENT IDEAS; SECOND: IT IS NOT AT ALL CLEAR TO ME WHAT INIT WILL BE; THIRD: YOU KNOW THAT WE PUBLISH OUR OWN JOURNAL.
HOPEFULLY WE GET THE GEORGE/SPRINGFIELD CASE CLEAR. THANKS FOR TRYING AS WELL FOR THE GREETINGS TO ADOLF - I TRANSLATED YOUR LETTER TO HIM.
BYE AND GOOD LUCK - ERNST

One of the first items on the agenda for our new INIT group was to recognize George Meek and Brazilian researcher Hernani Andrade with Lifetime Achievement Awards. George was pleased!

Dear Mark,

Subject: The 1995 Historic ITC meeting in England

Distribution to: Maggy and Jules Harsch-Fischbach, Mark Macy, Juliette Hollister,
Alison Van Dyk, Hans Heckmann, Hernani Andrade

While I have talked to you briefly on the phone, I want to send you a few written remarks on the recent historic meeting of researchers in England.

You yourself deserve thanks from all concerned for the great effort to organize and conduct this meeting and help to secure financing (without which there would have been no meeting!). All concerned shared in the efforts to overcome the many serious mental and emotional roadblocks.

Naturally I value highly the ACHIEVEMENT AWARD! It is easy to identify the persons who had a major part in the actual wording and production of the AWARD CERTIFICATES to my colleague Hernani and me. (I am sending a copy of this letter to Maggy and Jules, with my sincere good wishes for the crucially important part which they played in the almost impossible efforts to steer a path which largely bypassed some of the huge "roadblocks".

By the way of an update on "my retirement," I can state ***I have done no instrumental communication research in recent years.*** However, this letter is the first disclosure that in the past 3 years, I HAVE conducted some fruitful pioneering personal research in the field of ***non-instrumental*** communication. It involved Jeannette, Bill O'Neil, Loree and Luxembourg's telepathy. In this case, I have decided to disclose the arch in the closing of this episode. I had a 200 pound gas engine that I was "over my head." Its entirety. [Many months of telepathy) that he had used possible the series of "telephone calls" made by Dr. Raudive.]

As I see it, *instrumental* communication with spirit worlds may have a very limited future in the 21st century. In contrast, I predict that before the end of the 21st century, 95% of all person-to-person communication will be MIND-to-MIND - with no reliance on "equipment" - *straight mental telepathy*.

Such an achievement---*and only such an achievement --- will create permanent peace on this planet*. [Each person with evil thoughts will instantly be completely and easily detected. He or she will be caught "thought naked." That is, they will expose their evil and foolish thought patterns to their contemporaries. The hopes for a UNITED NATIONS organization will then be possible and accomplish the dreams of Juliette and Eleanor.]

And while old man Meek is making such "foolish projections"..... he further predicts that by the end of the coming century, "mind-to-mind communication" will also be used for communication with dwellers on far flung planets.... *with NO "hardware".... just mind-to-mind!*

Nearing age 86 I do not plan to now get involved in ANY laboratory research in the above or other areas. I am doing considerable reading, most of which seems to solidly confirm the above speculations and prognostications.

With Love and Best Wishes to you all,

George

Dartington Hall,
September 1995

In 1995 I co-authored a book with Pat Kubis, "Conversations Beyond the Light."

It explored the early ITC developments with a loving, dramatic tone provided largely by Pat, who had been a writing teacher at Orange Coast College (OCC) for many years.

Pat had been introduced to ITC in the early 1990s by one of her OCC students, a young woman named Renee, whose mother Waneta Thomas subscribed to some of those earliest issues of the Luxembourg journal, *CETL INFOnews*, that Hans Heckmann was translating into English, and which I was publishing. As I mentioned, I published a few dozen copies of each issue every few months from around 1993 to 1995 and distributed them among a small list of interested people, before I began to publish INIT's journal, *Contact!*. Mrs Thomas was one of those early subscribers.

An amazing synchronicity had occurred in the 1960s involving Pat Kubis and Doc Mueller (the departed physicist who had spoken to Bill O'Neil through the Spiricom device). Both had been teaching at Orange Coast College. Both of their pictures and short bios can be found in the June 1966 OCC yearbook:

KUBIS, PATRICIA, Instructor in English, A.A., Citrus Junior College; B.A., M.A., California State College at Los Angeles.

MUELLER, GEORGE J., Assistant Professor of Engineering, Mathematics, B.S., University of Wisconsin; M.S., Ph.D., Cornell University.

To the best of Pat's recollection, their paths had never crossed; they'd never met each other during lifetime. Neither Pat nor I knew that Mueller had been at OCC.

An error had been made at the Metascience Foundation after the spirit of George J. Mueller ("Doc Mueller") had come through Spiricom. George Meek of Metascience had confused Doc Mueller with another George Mueller who'd worked for NASA. I inherited that error and continued to perpetuate it in my writings for a number of years.

It wasn't until I gave a workshop in Marina Del Rey, California, on July 28, 2007, that I learned of Dr George J. Mueller's position at OCC. A participant in the workshop told me about the 1966 OCC yearbook, and I was astonished.

I have a feeling that this might have all been planned and choreographed by our spirit friends, who can sometimes make the most amazing miracles happen, as you'll see in the next contacts shown on the next several pages.

Following is a series of paradigm-shifting, world-changing contacts we received from The Seven ethereal beings. And it's this kind of ethereal truth that I have spent many years shuffling together with science, myth, and age-old religious texts to create what I believe is an unprecedented look at what "being human" really means—not just as individuals and nations today, but how we came to have a noble side and a savage side long, long ago. It's all the result of mega-events that happened over a span of many millions of years. It's the age-old human drama that I tried to capture in my latest book, "The Project."

The contacts I share in the next four pages are typical of most of the contacts we got at that time. They usually appeared in German and were quickly and skillfully translated to English by Hans Heckmann with the intention of preserving the original feelings behind the messages, as well as their meaning. This was especially challenging for Hans when faced with the wisdom and vast intellect of the Ethereals. I learned during this time that anytime you have a close relationship with ethereal beings and the guidance and protection they can provide, it's an amazing experience. There's a sense of bliss everyday that you soon start taking for granted. And when that comes to an end, down-shifting to normalcy is not easy. Why would the ethereal support end? Well . . .

Drama may be the first thing you need in show business, but it's the last thing we need in ITC and other fine spiritual pursuits. It's when the human drama kicks in that we lose attunement with the Ethereals. It's not as though they back out of our lives or "forsake" us, it's just that they can no longer tune into us. When the drama prevails, we open ourselves up to darker spiritual influences—confused or disagreeable spirits.

So as I share this collection of letters and papers, I avoid the occasional dramas that arose naturally, as they always do in human relationships, and I focus instead on the good will and the miracles that grew from that.

In fact, this is probably the most important information you'll ever get from me—and I've repeated it in most of my books: If you want to be involved in true ITC, which requires ethereal protection and guidance, you have to minimize the drama in your life and your relationships, to deal with drama as it comes up, and to calm the waves as quickly and effectively as possible. You have to know that drama is inevitable on Planet Earth, and if you want an ITC project to be successful you have to calm the waves as they arise. One

main distinction between EVP and ITC is that you can carry your dramas into EVP sessions and come out with all sorts of results and a wide range of dispositions on the part of the spirits you encounter. True ITC cannot happen without resonance (harmony) among researchers that allows for ethereal protection and guidance.

"The Project" explains in clearest possible terms why we have drama, how it is stirred up in our lives and in our world by our egos and hormones, and how there are many techniques to contend with it at the personal, social and global levels.

Back in the 1970s I learned that there are effective ways to resolve conflicts as they arise, but the more important issue in the future will be how to minimize conflicts over time in our groups. I've given that considerable thought over the past 25 years. That also is shared in a lot of detail in "The Project," which is the most important thing I've written in this lifetime.

It would be as wrong to fault humans for drama as it would be to fault your cat for killing birds. It's what they do. But, if your cat has to share your house with the parakeet, and if the humans want to be involved in ITC, it's important that they learn to overcome their compulsions if they want to find peace in the house and finer spiritual connections in ITC.

That's why historically, down through the ages, when individuals wanted to find mental and spiritual peace, they'd cloister themselves in monasteries and convents or to some isolated mountaintop or forest cabin, far removed from the drama of human affairs. That's how I spent much of my life before my involvement in ITC. I'd work in corporations as a technical writer and save up money so that I could take long vacations or breaks between jobs, to go into seclusion someplace—a forest cabin or a cottage near the ocean.

One of the main choices we have to make throughout our lives on Earth is how much drama we want to accept into our lives, and how much of it we want to avoid. The things I learned about human drama while writing "The Project" allowed me to create a sort of adjustable switch inside myself to turn drama on or off, or to turn it up or down as needed or desired. After all, some drama is downright fun here on Earth, and other drama can be destructive. It's nice to have that switch.

And now, here's a taste of the miracles I experienced in ITC, courtesy of the Ethereals, through the correspondences with my colleagues and friends.

Dear Hans,

The enclosed text given to us through computer by TIMESTREAM is for your translation. We assume the content is first of all for charter members of INIT. Any further disposition will have to be decided.

According to TECHNICIAN, contact "A" by ISHKUMAR refers to thoughts that were on Ralf Determeyer's mind. The term snake or serpent in the first THFIRIN contact is generally used by the other side to indicate "evil", the "inclination to the negative" among men.

Our thoughts are with you. The best wishes and our Love to you and all our friends in the USA.

I, Ishkumar, one of the seven, have the following message to pass on to you:

Many among you have a false impression about us. Unfortunately this is often the case with your mediums who recognize only part of us. Also, there are a great number of people who claim to have a direct connection to God, Jaweh or Jehovah. It is often true of ITC experimenters.

This is foolish, because earth people mistakenly see God as a person. God is not a person but the highest principle of life, as well as the absolute reality. He is the absolute unity and the absolute, unlimited and all encompassing Universe.

As a limitless unity, the universe can never be a creative person, who are numerous in the cosmos. Neither is the idea tenable that there is a single Son of God for the entire cosmos. Jesus Christ, today a part of Pescator, has never described himself as such.

Since God, in the last analysis is everything, and everything is God, it makes no difference which religion you belong to. There is only one universal truth which can be found through the path of decency. It is not accessible by preaching loudly about water and secretly drinking wine. Not those will find contentment who speak and write of love but do not practice it, but he who dedicates himself to the powers that perfect the knowledge of the true power of spirit.

Some of you still get pleasure out of getting even with others

2

or disturbing or even preventing mutual efforts for a desired unity. This is short lived and results only in temporary satisfaction. As a rule, a negative Karma develops that carries grief with it.

For those who follow eternal principles the doors to freedom are open. Misled people who suffer in the darkness of materialism accept only too willingly what they hear about love and peace out of the mouth of glib talkers, - but they too can hope ... Even the less intelligent people can return to God where they will be united in perfect bliss and total understanding for all eternity.

By THFIRRIN, one of the seven.

Long, long ago when men came to earth from Eden (or Marduk) he had lost mastery over nature after his encounter (discord) with the serpent. This was the start of a drama which should cast its shadow even to the beginning of a new religion of anew God. Men had to fight against nature and some of its most dangerous creatures. You call them monsters, but they were only life forms which defended themselves and their kind. These monsters were not accessible to the intellectual superiority of men and had to be defeated and destroyed by cunning and strength.

Human civilisation prevailed. Of these far back times only legends were handed down. Do not smile about them. Perhaps the day may not be far off when your science, which is so concerned with relationships, may dig up the skeleton of a dragon.

When Christianity started its conquest, earth had been freed of these monstrous animals, but they were still very much present in peoples minds. Now it was the saints like Michael who defeated them by force. Later on, others whom you call saints subdued the so-called wild animals up to the day when force became superfluous and they were subdued by intellect.

So it was with the saintly Schetzel who lived at peace with the animals of the woods right here at the place you live today. He knows that you too, are great friends of animals, as are all the little people (elementals). He blesses everyone on earth who is concerned with the preservation of all that has been created.

At this point we want to come back to the often discussed subject of original sin. If we analyze what is still believed and frequently taught in Catechism today, which is the so called "fall of man" and its consequences, every logically thinking man, catholic or not, must conclude that man's punishment did not bear any relation to his transgression. (Actually it was only a "recognition of reality"). Curiously, the first sinful men were said to have been forgiven and the burden of this sin placed on their (innocent) progeny.

This entire contradicting story naturally should serve as an

4

explanation for death. In reality the fall of man is a legend accepted from Greek mythology. It was maintained by the mysteries and found its way into the schools of philosophy during the Greek classic period. Humans were considered to be descendants of titans who had killed the young Dionysos-Zagreus. The burden of this crime weighed heavy on them. In a fragment of Anaximander it is said that the unity of the world was destroyed by a prehistoric crime. In reality, everything is based on the downfall of Atlantis (also known by other names) brought about by the descendants of the last inhabitants of Marduk who were distressed (stranded) on planet Terra. This downfall came through reliance and blind trust in a massive technology....

The church tried to prove the theory of the consequences of original sin by emphasizing man's tendency to evil. In this case Adam who was free of original sin had no inclination to evil (in my first text I allegorically referred to it as serpent).

You see, there was a fall of man, but different than you imagined. We know that many among you will not believe us. This does not bother us. We know that this is how it was. Today you may consider it science fiction, but you too, will one day recognize it again.

The next time we shall speak of more pleasant things.

So, that is the kind of information received through ITC systems with purity and clarity from very fine realms of spirit that gives us humans a better opportunity than ever before possible to start assembling a picture of our true ancient heritage. Again, it's what I tried to do with "The Project."

Also at this time I received occasional correspondences from German researcher Adolf Homes, who was also receiving some "high-level" messages through his computer from a spirit group calling itself "Federation of Light." Adolf spoke only German, so his letters also were sent to me through Hans Heckmann, who translated them with the usual care.

Following is one example of those letters from Adolf.

DISKETTE ENCLOSED

TRANSLATION OF HOMES LETTER AND PARANORMAL COMPUTER CONTACT
OF FEB. 15, 1996.

Information for INIT.

Dear Mr. Macy,

Enclosed is another computer transmission from the "Federation of the Light" which my wife found this morning at 5:15 stored under F D L 5.

Since requesting monitoring and Caller I.D. of my telephone I received the following paranormal calls:
First call, Jan. 15, 1996, fully recorded.
Second call, Jan. 30, 1996, partially recorded.
Third call, Feb. 15, 1996, fully recorded.
I sent the audio cassettes of these calls to the Association for Psychobiophysic in Mainz, Germany.

In the first and third call the other side specifically refers to the Caller I.D. check for clearing up the skepticism expressed world-wide. During the third call the caller says: "Without your control you can not call it paranormal".

My friends and I share this opinion, fully aware that after us there will be others who receive paranormal phone calls. In our view we can only speak of paranormal telephone contacts when the monitoring is unable to locate the caller. We are awaiting the report of the German "TELECOM-DIREKT". Several scientist and myself intend to circulate the official report world-wide and thereby clarify things.
Copies of this letter were sent to England, Sweden, USA, Israel, Brazil, Japan, France, Switzerland, Holland and all (Init) group leaders in Germany.

It has to be in the interest of us all to prove to the skeptics that these calls are paranormal. The best of greetings
Your A. Homes

F D L 5 Computer transmission follows:

This is the Light Federation through transmission bridge R4. We greet all spirit on your planet. All spirit worlds are connected by vibration. It is adjustment to the creator out of love. All existing wisdom and the wisdom of the ages are founded in the source and center. The human psyche is not aware of this any more, but all world religions point this out. In a way the earthling can not be blamed, but he has the potential of understanding. Nothing can be withdrawn from the original creative transformation. Your book of learning (bible) is not only written for people who lived long before your time. The momentary spiritual situation also contains this understanding.

Many spirits who were with you, point out that envy, jealousy,

and your ulterior motives considerably impede the contact with you. Your system is always understood as two opposite polarities. Human reality from the Creator God was long ago manipulated by the selfishness of Gods you created yourself.

We, who are not visible to you, do not want to teach you. Your own recognition of things, by your own reasoning, will in the end remove all critical mass. Eschatology (branch of theology dealing with death, judgment, immortality etc.) is totally misunderstood by you. We shall report about this.

Our federation of light (FDL) identify themselves as extra-galactic beings. We have the ability of extra-terrestrial materialization even within your own system, but exercise the greatest caution. Unfortunately, we find it difficult to understand human logic. The nature of original creation has little to do anymore with the logic of mankind. You will have to free yourself of all prejudice and make room for love.

The shamans informed us about the existence of R4 (Rivenich station). Human reports about us are only partially correct. It is the actual spirit form itself which creates suitable conditions in different systems. FDL is greeting all people.

END OF TRANSLATION.

THE CAST WILL BE COMING OFF IN A WEEK, I HOPE.
DOING FAIRLY WELL AS IT IS NOW. IT SEEMS ADOLF HOMES
IS VERY CONCERNED ABOUT KEEPING GOOD LINKS TO INIT AND
ESPECIALLY TO YOU. THAT IS A GOOD SIGN FOR FUTURE COOPERATION,

H.

George W. Meek
10 Kingwood Circle
Franklin NC 28734

By 1996 it had become clear that George Meek and I had diverged on our paths. His primary interest was MTC as experienced through his housekeeper Loree, and my interest was ITC.

The following letters illustrate how that separation came about, and how I turned over to him all of my work on "The Property." Much of that information found its way into George's final book, "Enjoy Your Own Funeral; and have a happy forever."

Dear George,

Regina and I have discussed your offer of \$1,500 to buy out all my interest in our book *We Survive!* It's with mixed feelings that I relinquish my involvement in the book into your hands. After investing more than three years of effort into that important book, it's difficult just to shrug it off my shoulders. More important, the book represents my working relationship with you, which has been the most enlightening period of my life, and it's sad to see that come to an end.

On the other hand, our beliefs have slowly been moving in opposite directions on certain issues – specifically, the importance of technical spirit communication in relation to telepathic communication, and the likelihood of the prophesied End Times, or Earth Changes. Our different views, I think, have pulled the book in two directions, and perhaps that has been the book's biggest obstacle.

Still, your story and your ideas deserve to be read widely, and my best efforts to make that happen have failed, so maybe you can succeed with the help of someone else. You certainly have my best wishes in doing so. If I can be of service or support to you and your new associate, don't hesitate to contact me.

Meanwhile, George, to make things formal:

I hereby relinquish to you all claims and rights to the book *We Survive!* (except for the last two chapters which consist of my own ideas and beliefs that you acknowledge are of little interest to you). All other ideas, information and passages that I added to the book in support of your experiences and beliefs are yours to use as you please. I relinquish all rights to the materials in *The Property* which included information channeled by your housekeeper Loree and which you gave me shortly after we met.

Of course, the pictures and text provided by other sources (Maggy and Jules of Luxembourg, the publisher of Carl Wicklund's book, etc.) cannot be claimed exclusively by either of us. Regarding the jacket statements which I acquired from different people for our book, you will probably have to contact each of those people separately to see if they will still want their statements used on the book which you and your new associate create. Likewise the foreword by Willis Harman: he will probably have to be contacted if you wish to use his material.

So, George, I wish you the best of luck with your new venture. If you can afford to part with the \$1,500, it would certainly be useful to us at this time.

Love and Light from Regina and me,

Mark Macy

From Mark Macy to George Meek

Dear George,

1996 May 17

It was a pleasure talking with you yesterday. You're one of the finest people I've met in terms of your sincerity, ability to get things done, and unwavering devotion to higher spiritual values. You've had a tremendous impact on my life in the four years I've known you, so I want to thank you.

I don't need to repeat what Maggy said about you being held in high esteem throughout ITC -- from the researchers around the world, to the many thousands of colleagues working with us from all levels of the spirit worlds. You are a much loved man for reasons that become apparent to people who meet you and work with you.

I just hope you have it always in mind that, regardless of the path you choose to walk in the autumn of this lifetime, those of us who are now on the ITC path which you pioneered have a very deep and abiding appreciation for you. If and when your personal path leads you back to ITC, I think for you it will feel like coming home. At least I hope that's true.

Incidentally, so far I have had no direct contact with Jeannette. She has apparently conveyed information to me through Jean Peterson (many months ago), and Konstantin Raudive mentioned her during his phone conversation with me, but I have not been in touch with her directly (unless it was in my dreams). I hope that someday you and Jeannette together will be in touch with me, but if that is not to be (if the two of you decide to fly off alone somewhere to enjoy a paradise beyond human comprehension!) I will understand.

Anyway, I hope all is well with you. I am taking the current issue of *Contact!* to the post office today. Bill O'Neil has developed a Spiricom-like device on the other side, and he's working with my radios every morning. Regina and Aaron look forward to the freedom of summer, a time of recharging. I'm still giving presentations now and then and am helping to plan the big INIT meeting in New York this fall. (If you change your mind about attending, even at the very last moment, that will be fine!) And that's most of the news from here.

Warm regards,

Mark

By the way, George, Maggy asks you to drop her a short line about the letter she FAXed you (thru me) yesterday.

The next several years of my work as a part of INIT are summed up most effectively in the journals I published, which can be seen at the following link:

<http://spiritfaces.com/04-journals.htm>

In 1999 things were shifting. Egos within INIT had already begun to stir up a lot of discord in the group, and the contact field had become difficult for our spirit friends to navigate. As a result, our contacts began to fall off considerably. That was the subject of my book, "Miracles in the Storm" which provides a first-hand account of what can go wrong with spiritual projects in general, and with ITC projects in particular, when the savage side takes over.

I've been on many TV and radio shows over the years to spread the word about ITC, and most have been good experiences, showing ITC in a positive light. (You can see clips from some of the TV shows on youtube; just google on "macy afterlife.")

There was only one disturbing radio interview, in which a fellow tried to coerce me into handing over to him all of my materials from my years of work with George Meek. I considered sharing the information until I realized he was trying to debunk George's work, especially Spiricom. Then I made it clear to him I would share nothing with him—that in fact I wanted nothing more to do with him . . . largely because of what struck me as a vitriolic tone of his on-air conversation. The caustic drama would boil over onto the guy's website (www.spiricomstudy.com).

Years of ITC research have taught me the importance not only of minimizing life's dramas, but also of discernment and saying "no" at appropriate times, even if some people might feel snubbed. The most important aspect of ITC research is a calm, positive attitude, even in the face of dark and dismal assaults.

A calm, positive attitude fosters resonance among colleagues, which brings me to my current phase of research. In 1999 I started worlditc.org and opened a very basic website by that name. I also received a letter from German researcher Rolf-Dietmar Ehrhardt, who would become my most stable, grounded, and time-proven ITC colleague. He and his wife Helga became good friends of Regina and me. We enjoyed time together in Heidelberg and San Francisco, as well as through frequent correspondence.

Those who have followed Rolf over the years during his participation in worlditc.org have seen his English fluency become more and more polished. Today he has become quite proficient in expressing his wise, well-grounded ideas clearly in English.

In any event, this is the letter that introduced me to Rolf in the summer of 1999:

Seeing those EVP and other phenomena challenges me. As I understood several information, one goal should be:

scientifically confirmation the communication among dimensions.

Allow me to say some words ref. my background:

I am a so called scientist through my study of physics. Not theoretical, but experimental physic combined with an engineering part was my study. Since I finished my study in 1964 I was working with scientists as they were my customers. My customers ranged from schools to universities. I was used to experiment with different type of equipment, in fact the whole range of physics, wide range of technical education materials and some chemistry. Because I were in close contacts to that type of people for almost 30 years I dare to say: I hope to know a little bit how scientists think, at least those folks in Germany. Through my studies of marketing I learned how to sell products and ideas.

You can say, that in 1986 when all that started with me, I was somebody who thought that the sense of hu-

man life (as well as the other types of life) was only to keep mankind alive. I hope you know what I mean. „Running“ with those ideas I had no problems with my life. I felt (and still feel) good. In 1986 I got my first EVP and you can believe me that I tried almost everything to find out what it was and where it comes from. To shorten my detailed statement I like to mention to you that I built amplifier, sum-and-difference-amplifier, 30 band real-time audio-spectrum-analyzer, 30-band terz graphic equalizer which worked as an adjustable filter for disturbing noises, filter with parametrization technique, and so on in order to better the EVP at least for the replay mode. Using all this equipment I had to realize that there were people who got loud, clear and relative to time long messages without any additional equipment but recorder and microphone. That had no frustrating effect on me. In fact it brought me to the point to realize that the human component is very important. Because people who got that good EVP had still a very high emotional connection to that person died. And it seems to me that the being beyond (the recently died person) had still a very emotional remembrance to the people left on earth.

Let me point out again: it was EVP that made me (a scientist) interested in the spirits world and furthermore. Without EVP/ITC I would never come in contact with that kind of knowledge. The advantage of the help of a medium trying to get ITC-contacts is: one can get more often, louder EVP and/or better ITC-contacts via telephone, computer and perhaps or of course contacts per video. The medium should only better the channel to Beyond and stabilize it. With that strong „human part“ of the energetic field the field required to get in contact with the beings beyond can not be weakened so easily by people who take part in that session and are not so „good-minded“. That and only that is my reason to be in favor of working together with a medium in order to get good ITC contacts. The result of that contact can be objectivated through the way it happened.

I mean the degree of development a contacting person or group on earth has (scientifically trained or not, knowledge ..) determines the type of being in the beyond he gets in contact with. The Scole Group in Norfolk (England) is that example for that what I mean.

Let me explain how a scientist could be interested in that way of thinking we are familiar with:

- A) A physicist or scientist will almost never be interested in a medium: because the results are subjective.
- B) If you try in the very beginning with EVP the not open minded scientists are afraid to be defrauded. Why? It is not so easy to check all the used equipment. Even in a simple recorder a transceiver could have been build in, they are afraid of. The scientist would have to use his own „machines in his rooms“ at a time he determines. That could probably „open“ his mind. In my opinion ITC is the second step to open or to widen scientists mind.
- C) The most impressive way (in my opinion and in my experience) is this (every single step is important):
You ask a physicist to get some spoons or screw driver and he should keep them. You wash your hands in front of the scientist. Then you ask him to give you one of his spoons (by far better is a screw driver). Then you bend that spoon or screw driver in front of his very eyes. After you have done that you give the bended spoon to the scientist and ask him to do the same with

one of his spoons. If he could not bend his spoon you ask for an explanation. (Information: it is even more impressive to the scientist when the spoon will be twisted not bended because the force that is normally needed is much higher.) Going this way excludes everything a scientist could use to avoid the experience that with this experiment something unexpected and even unbelievable has happened. In Germany we say now an open minded person has got his „AHA???!!!!“-experience. That means the person starts to think loudly, tries to find explanations and considers that there is something he didn't knew before. In the USA you say perhaps „OH YEAH???!!!! That can be the beginning of new considerations and many many questions to be asked from that physicist and/or scientist. If it is not that „changing my mind“- (=“AHA-) experience to that scientist you can only offer him at a later stage in that discussion that he can get perhaps with your help an EVP with his died relatives and/or friends. Be careful that could be the last talk for a long time with this person! (smile!!!)

D) If we are not successful in that way that the scientist could except something, we should take it easy. We as someone who is student at the university can momentarily not come to the same point of view as a pupil in the 4th class. That is all. To be a student is not more worthy than to be a pupil. It explains only the way our soul has chosen.

By the way, I believe almost everything that could better Humanity on earth has been said from beings beyond (and beings on earth) by using different ways (medium, channeling, ITC-phenomena ...) written down in many many books. Why don't people change, is your question?? Because they don't believe in that was has been said or they don't even care. Why? Because they are interested in problems bound to earth. Because they don't believe that they will „earn“ the result of their lifes when they are dead (reincarnation).

We should know that each individual on earth has to go its own way to realization (to God at the very final end?!) considering that everybody (with his soul) starts at a different level of Karma with different insight capabilities and different bodies in different environments.... Look at the educational system and allow me to compare the different stages of human beings on earth with that system. One would never come to the idea to expect from 1th-class pupils that degree of knowledge, capabilities, experiences ... students at the universities have. I believe that is almost the same situation with the peoples development in mental and spiritual respect. One should only show this way of realization expecting that most people don't care.

There are many ways to Rome! But there are many questions connected to that statement. The first one is: „Do we want to go to Rome?“. Which way should we take?

Can we found several groups to go different ways to where?

Best regards

Rolf-D. Ehrhardt

That letter forged a long friendship and collaboration for which I am grateful!
Then things began to happen fast. In 2001 I was awarded the Swiss Prize for Epipsychology, and in 2003 I was awarded a PhD. I didn't solicit either; they both were given to me by institutions outside the United States for my years of writing and research. I hold each of these honors in high esteem.

In 2002, Rolf took over the job of building up the <http://www.worlditc.org> website, which he patterned after his own extensive website, <http://www.rodiehr.de>. Our goal with worlditc.org has been to assemble the clearest, most complete source of ITC information possible and to make it all freely accessible to the world.

Many dramas have been stirred up in my work in recent years, and Rolf has always been the solid, calm voice of reason that has kept worlditc on a steady course for our work together.
